NOTES

1. All dimensions are in metres unless otherwise stated. Do not scale from this drawing.
  2. All items shown in grey are existing and are to remain unless stated otherwise.
  3. The information shown on this drawing is based on topographical surveys undertaken by Planner Surveys' in January 2017 and June 2018.
  4. This drawing is to be read in conjunction with all CONAVIA AECOM drawings for Job No. 100-004-004-P-03 as listed on the scheme drawing contents table.
  5. This drawing is to be read in conjunction with Southwark Streetcape Design manual (SSDM) and all relevant contract clauses.
  6. Traffic management is to be in accordance with Chapter 8 of the Traffic Signs Manual and Yellow Street Works and Road Works.
  7. Any works around or in the vicinity of trees, contractor shall ensure that the trees are sufficiently protected by maintaining at least one metre barrier protection from the tree trunk, that no materials or plant are stored within the canopy of the tree and that all works are undertaken by hand digging if any tree rods in excess of 25mm are encountered on site, the contractor shall seek works in that area and seek guidance from the site engineer who will consult Southwark Council arboriculture officer.
  8. Contractor to scan for services prior to excavation and refer to utility records.
  9. Contractor to maintain access to all properties and businesses at all times and agree alternative access arrangements with stakeholders.
  10. Tarmac paving to be laid with a maximum gradient of 1:12.
  11. Damaged slabs, blocks or kerbs as part of the adjacent construction works to be reinstated to match existing.
  12. Contractor to take care when working within close proximity to the existing lighting columns and existing street furniture, any damaged lighting columns and street furniture are to be reported to LBS.
