Dear Resident

Eveline Lowe Estate, Linsey Street – New Homes Update

Our residents across Southwark have told us that they are concerned about the amount of secure high quality, genuinely affordable housing. That's why we're building 11,000 new council homes in the borough by 2043 - 2,500 of these by 2022. It's a big goal, but it's crucial if we're going to tackle the housing crisis and make sure our residents have quality homes they can be proud of, now and in the future.

You will recall that we wrote to you on 23/09/2019 asking for your help in deciding where and how we build new council homes while making improvements to your estate that all residents can benefit from. Thank you to all of you who responded and provided feedback and ideas.

Any new development would need to be sensitive to the surroundings so limiting the impact of daylight /sunlight access to existing dwellings. Also for a detailed construction management plan to address concerns including about traffic during school times.. We have also heard from some residents that there are concerns around increasing density, as this site is in addition to garage sites in the near vicinity.

Residents also identified opportunities such as improving the existing play areas and football pitch and increasing facilities for older children.. We will be working closely with you to explore these further to understand how they can be addressed through the design of the new homes or estate improvements.

The Cabinet Member for Social Regeneration, Great Estates, New Council Homes considered the feedback received and has agreed for further development work to be carried out in order to provide for new council homes and wider improvements to your estate. We can now move to the next stage. The next stage is about:

- further consultation with you
- advice from building consultants on the deliverability of the project and how it could be developed.

A community brief will be developed with you to ensure these issues and opportunities what matters most to you, about where you live, are at the forefront of what the project achieves.

Over the next coming months we will be progressing with the appointment of the consultants made up of an Architect and Employers Agents, who will be providing the expertise for the design stages of the development process.

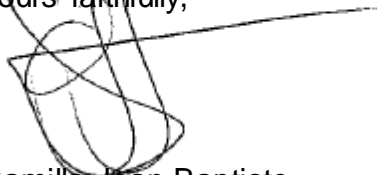

We will proactively seek to look at ways to engage the local community in as many aspects of the scheme throughout the design and development of new council homes, we'll make sure you're involved in the most important decisions, and that there are plenty of opportunities for you to have your say. This could be through TRAs (where they exist), individually through, workshops, walkabouts, drop-in meetings and events. We'll also keep you updated through newsletters, on our website, and we'll aim to hold meetings at times that work for everyone.

A part of Southwark Council's consultation process we also have the option of setting up a Project Group formed of tenants, leaseholders and key stakeholders. The Project Group -can play an important role in overseeing the project through to its completion.

If you are interested in becoming a member of a Project Group you will have the opportunity to put your name forward at the drop-in event to be held. If you cannot make the drop-in event you can contact us directly.

We will write to you again to invite you to a drop-in to meet the Architects and Employers Agents where we will provide feedback on the queries or concerns you told us about and the estate improvements you suggested.

Yours faithfully,

Camilla Jean-Baptiste
Project Manager
