# Statement of reasons

## 'School Streets' road closures

### Camelot Primary School, Comber Grove Primary School & Rye Oak Primary School

The London Borough of Southwark (Parking places) (CPZ 'K') (No. 2) Experimental Traffic Order 2020

The London Borough of Southwark (Prescribed Route) (Bird In Bush Road) Experimental Traffic Order 2020

The London Borough of Southwark (Prescribed Route) (Comber Grove) Experimental Traffic Order 2020

The London Borough of Southwark (Prescribed Route) (Whorlton Road) Experimental Traffic Order 2020

The London Borough of Southwark (Waiting and loading restrictions) (Amendment No. 7) Experimental Traffic Order 2020

The decision has been made to introduce experimental road closures, and any necessary changes to existing highway restrictions to accommodate the closures, as part of the 'School Streets' programme in the vicinity of three primary schools - in the London Borough of Southwark.

A summary of the proposed schemes' details are as follows:

#### **Camelot Primary School** (within the Old Kent Road ward)

a road closure in part of Bird In Bush Road which will be physically enforced with traffic signs and the installation of barriers (NAL blocks) located (i) south-west of the access to Peterchurch House and, (ii) a point 51 metres north-east of its junction with Green Hundred Road/Naylor Road;

#### **Comber Grove Primary School** (within the Camberwell Green ward)

(a) a road closure in part of Comber Grove which will be physically enforced with traffic signs and the installation of barriers (NAL blocks) located (i) a point 75.5 metres south of the south-eastern kerb-line of Wyndham Road and, (ii) a point 38 metres north of the northern kerb-line of Blucher Road, and (b) on the east side, loss of 21.5 metres of permit holders' parking in Controlled Parking Zone 'K' (21.5 metres of this permit bay will remain);

#### **Rye Oak Primary School** (within the Rye Lane ward)

(a) a road closure in part of Whorlton Road which will be physically enforced with traffic signs and the installation of barriers (NAL blocks) located (i) south-west of its junction with Old James Street/Scylla Road and, (ii) north-east of the north-eastern wall of No. 28 Whorlton Road, and (b) to extend existing 'at any time' waiting restrictions (double yellow lines) from its junction with Old James Street/Scylla Road and the north-eastern wall of No. 13a Whorlton Road - to ease vehicle movements at the south-westernmost end of Whorlton Road.

These measures will be subject to an experimental Traffic Management Order (TMO). A TMO is the legal mechanism the council as traffic authority uses to control aspects of the way that the highway is used. They provide the legal backing to signs and road markings used on the highway and allow them to be enforceable.

The experimental TMOs will be enforceable for a period up to 18 months to allow the assessment of any impact the road closure might have on the area and surrounding roads, and to revise the scheme if necessary within that time. A review will be carried out to assess the initial success of the scheme and whether the road closure/s should be made permanent.
