Slide 13	How we will consult with you
Slide 14	Indicative next steps

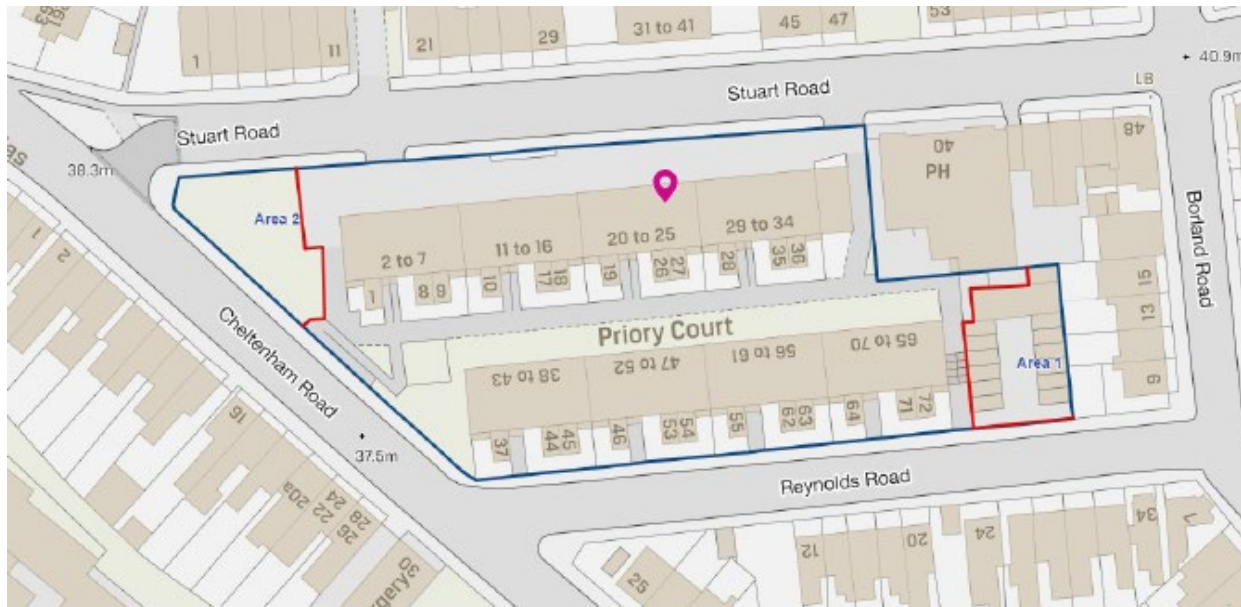

# Introduction

Priory Court has been approved for redevelopment to provide new council homes. This is part of our commitment to help make lives better in the borough by building 11,000 new council homes by 2043.

Throughout the design and development of any new council homes, we'll make sure you're involved in the most important decisions, and that there are plenty of opportunities for you to have your say. This could be through TRAs (where they exist), individually, or through drop-in meetings and events. We'll also keep you updated through newsletters, on our website, and we'll aim to hold meetings at times that work for everyone.

# Location of proposed development

This map shows the area of the site approved to provide new Council homes.

# Our Commitments

- We are committed to building 11,000 new council homes across Southwark by 2043
- Of these, 2,500 will be delivered by 2022
- There are currently about 10,000 households on the housing waiting list and 2,000 families are in temporary accommodation
- Priory Court is one of 80 sites across the borough that the council is currently developing for new council homes
- Under our local lettings policy, a minimum of 50% of the new council homes will be for local tenants in housing need

## Why we're making them

- A shortage of affordable housing is a top concern for our residents
- The population of our borough is growing
- To help meet the housing needs of future generations
- To provide opportunities and strengthen communities

# Your Feedback

We confirmed to you on 13 February 2020 that the project had received approval to proceed to design development.

Latest consultation letters were sent out to all residents on 04/03/2019 asking for your views on the potential for building new council homes at the corner of Cheltenham and Stuart Road and the garages at Reynolds Road for your suggestions on we can improve the estate as part of the redevelopment.

The feedback that we received from you and our response is detailed below.

# Your Feedback (continued)

**Question – We asked what your views, suggestions and comments are about the proposal to develop Priory Court into new homes.**

- Loss of green spaces;
- Better refuse and recycling facilities;
- Disruption during the build;
- Moving Little Village from the old T&RA hall.

# Your Feedback (continued)

**Question – We asked how we could provide additional benefits for you, your neighbours and the local area at the same time?**

- Re-design the existing green space so that it is more inviting and accessible;
- Putting in measures to discourage fly tipping;
- Improving estate lighting;
- Creating a space for community projects.

# Our response to your feedback

We value the comments we received from you and hope that our feedback below will answer some of your questions.

We value the comments we received from you and hope that our feedback below will answer some of your questions.

## **Fly Tipping & Refuse Facilities**

Your concerns about the amount of bulk rubbish dumped on the estate and re arranging the refuse facilities will be forwarded to our Architect for consideration in the development of the design. We have already spoken with our internal colleagues on how to improve this on your estate and we will add this to the project brief.

# Our response to your feedback (cont'd)

## **Benefits to the local area**

The council is committed to improving the surrounding area on the estates that we provide new homes. As part of the proposed project groups and in conjunction with the architect we will work with you to find ways that we can improve the estate.

## **Community Project Space**

The proposed development will mean the existing T&RA hall currently used by Little Village will be demolished. We are actively working with our internal colleagues to find another location for Little Village and will keep the team at Little Village and residents updated with our progress.

# Community Brief

## We need your help to develop a Community Brief

The first role of the Project Group will be to help us develop a community brief which will detail what matters most to you about the new homes and improving where you live. The architects will need to respond to this brief through the design development stages once they are appointed.

We are setting up a New Homes Project Group (NHPG) for Priory Court. The Group will be made up of about nine local people who will work closely with the Council and its consultants to develop the plans for new homes.

If you would like to be involved in developing the community brief and being a Project Group member please let us know by registering your interest.

# What a Project Group involves

## **What being part of the New Homes Project Group involves:**

By being involved you will:

- Have a genuine say in how the scheme will develop;
- Influence how the scheme fits in with the existing estate;
- Get involved in your local community and meet new people;
- Learn about architecture, design and the planning policy process.

## **How the meetings will take place:**

- For the foreseeable future we are adapting the way we consult to remove unnecessary social contact. We will agree with you the best way to hold the meetings.

# How we will consult with you

We remain committed to ensuring we consult with you throughout the design and development stages of the new council homes. We want to make sure of you are involved in the most important decisions as we progress.

For the time being as a result of the current Covid-19 situation, we are following the social distancing directive from Central Government and plan to carry out our consultation online and via our consultation hub at:

[www.southwark.gov.uk/priorycourtestateconsultation](http://www.southwark.gov.uk/priorycourtestateconsultation)

From now on, we will keep the hub permanently open and all our newsletters, general notification and updates on this project will now be posted on the hub.

## Keeping in contact with us

A dedicated New Homes consultation mailbox has been created for you to contact us if you have any queries; please use this email address
