

Co-ordination of leaseholders' responses

The Tribunal has asked leaseholders to coordinate their responses to the Dispensation application insofar as possible.

To that end you may wish to contact Neil Martindale, a leaseholder who is willing to assist with this. His email for this purpose is southwark2023@mail.com.

Mr Martindale asks us to point out that he is not registered with the Information Commissioner as a data controller. This being a one off matter he is not required to do so. He asks us to point out that any data submitted to him should keep that in mind. He also suggests that the leaseholders create a specific email address for this purpose which can be disposed of at the end of the matter. It would also help to keep any data submitted separate from other matters.
