INTRODUCTION

This Statement of Accounts is produced in accordance with legislation and in particular with the Accounts and Audit Regulations 2011. This Statement of Accounts provides information about the council's expenditure and income and the overall financial position of the council at the end of the 2014/15 financial year.

Since the Government's October 2010 spending review the council has faced a significant reduction in spending power. The council anticipates further funding reductions in the medium term and needs to ensure that it is able to deliver statutory services, meet its revenue obligations and deliver an ambitious capital programme. This programme includes the commitment to build 11,000 new council homes over the next 30 years. To support these requirements, the council has modestly increased its reserves in recent years. However, in 2014/15 reserves have reduced as planned to support the revenue budget, the services provided and the costs of modernisation.

As the period of austerity and funding reductions for local government continues, the council will wish to ensure that these reserves are maintained at appropriate and adequate levels to safeguard service provision and to support modernisation of the organisation and challenging regeneration projects across the borough.

It is encouraging to note that pension fund performance during the year has continued to improve as markets recover. The current strategy has seen this performance rise relative to other funds; the council's performance measurement service ranked the fund third out of 84 funds in its Local Government Pension Scheme peer group. This positive will of course need to be continually reviewed.

I certify that:

- (a) The Statement of Accounts for the year ended 31 March 2015 has been prepared in the form directed by the Code and under the accounting policies as set out in the Notes to the Accounts, and
- (b) In my opinion the Statement of Accounts gives a true and fair view of the income and expenditure and cash flows for the financial year and the financial position as at the end of the financial year.

Duncan Whitfield

Strategic Director of Finance and Corporate Services

24 September 2015

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SOUTHWARK COUNCIL

We have audited the financial statements of Southwark Council for the year ended 31 March 2015 under the Audit Commission Act 1998. The financial statements comprise the Movement in Reserves Statement, the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Cash Flow Statement, the Housing Revenue Account Income and Expenditure Statement, the Movement on the Housing Revenue Account Statement, the Collection Fund and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15.

This report is made solely to the members of Southwark Council in accordance with Part II of the Audit Commission Act 1998 and for no other purpose, as set out in paragraph 48 of the Statement of Responsibilities of Auditors and Audited Bodies published by the Audit Commission in March 2010. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's Members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Strategic Director of Finance and Corporate Services and Auditor

As explained more fully in the Statement of Responsibilities, the Strategic Director of Finance and Corporate Services is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15, and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards also require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Authority's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Strategic Director of Finance and Corporate Services; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the explanatory foreword to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the financial position of Southwark Council as at 31 March 2015 and of its expenditure and income for the year then ended; and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15 and applicable law.

Opinion on other matters

In our opinion, the information given in the explanatory foreword for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we report by exception

We report to you if:

- in our opinion the annual governance statement does not reflect compliance with 'Delivering Good Governance in Local Government: a Framework' published by CIPFA/SOLACE in June 2007:
- we issue a report in the public interest under section 8 of the Audit Commission Act 1998;
- we designate under section 11 of the Audit Commission Act 1998 any recommendation as one
 that requires the Authority to consider it at a public meeting and to decide what action to take
 in response; or
- we exercise any other special powers of the auditor under the Audit Commission Act 1998.

We have nothing to report in these respects.

Conclusion on the Authority's arrangements for securing economy, efficiency and effectiveness in the use of resources

Respective responsibilities of the Authority and the auditor

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

We are required under Section 5 of the Audit Commission Act 1998 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the Audit Commission requires us to report to you our conclusion relating to proper arrangements, having regard to relevant criteria specified by the Audit Commission in October 2014.

We report if significant matters have come to our attention which prevent us from concluding that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criteria, published by the Audit Commission in October 2014, as to whether the Authority has proper arrangements for:

- securing financial resilience; and
- challenging how it secures economy, efficiency and effectiveness.

The Audit Commission has determined these two criteria as those necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Authority put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2015.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, the Authority had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

Conclusion

On the basis of our work, having regard to the guidance on the specified criteria published by the Audit Commission in October 2014, we are satisfied that, in all significant respects, Southwark Council put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2015.

Delay in certification of completion of the audit

We are required to give an opinion on the consistency of the pension fund financial statements of Southwark Council included in the Pension Fund Annual Report with the pension fund financial statements included in the Statement of Accounts. The Local Government Pension Scheme Regulations 2013 require authorities to publish the Pension Fund Annual Report by 1 December 2015. As the Authority has not yet prepared the Pension Fund Annual Report at the time of this report we have yet to issue our report on the consistency of the pension fund financial statements. Until we have done so, we are unable to certify that we have completed the audit of the financial statements in accordance with the requirements of the Audit Commission Act 1998 and the Code of Audit Practice issued by the Audit Commission.

Also, we cannot formally conclude the audit and issue an audit certificate until we have completed the work necessary to issue our assurance statement in respect of the Authority's Whole of Government Accounts consolidation pack. We are satisfied that this work does not have a material effect on the financial statements or on our value for money conclusion.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SOUTHWARK COUNCIL

We have audited the pension fund financial statements of Southwark Council for the year ended 31 March 2015 under the Audit Commission Act 1998. The pension fund financial statements comprise the Fund Account, the Net Assets Statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15.

This report is made solely to the Members of Southwark Council, as a body, in accordance with Part II of the Audit Commission Act 1998 and as set out in paragraph 48 of the Statement of Responsibilities of Auditors and Audited Bodies published by the Audit Commission in March 2010. Our audit work has been undertaken so that we might state to the Members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's Members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Strategic Director of Finance and Corporate Services and Auditor

As explained more fully in the Statement of Responsibilities, the Strategic Director of Finance and Corporate Services is responsible for the preparation of the Authority's Statement of Accounts, which include the pension fund financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15, and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the pension fund financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards also require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the pension fund financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the pension fund's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Strategic Director of Finance and Corporate Services; and the overall presentation of the pension fund financial statements. In addition, we read all the financial and non-financial information in the explanatory foreword to identify material inconsistencies with the audited pension fund financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on the pension fund financial statements

In our opinion the pension fund financial statements:

- give a true and fair view of the financial transactions of the pension fund during the year ended 31 March 2015 and of the amount and disposition of the fund's assets and liabilities as at 31 March 2015; and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15 and applicable law.

Opinion on other matters

In our opinion, the information given in the explanatory foreword for the financial year for which the pension fund financial statements are prepared is consistent with the pension fund financial statements.

25 September 2015

EXPLANATORY FOREWORD

1. INTRODUCTION

1.1. The foreword provides a brief explanation of the statements that comprise the Accounts and a summary of the council's overall financial position, highlighting the more significant matters reported in the Accounts. It also provides information on developments that may influence the Accounts in the future.

2. THE STATEMENT OF ACCOUNTS

- 2.1. These financial statements have been prepared in line with the Code of Practice on Local Authority Accounting in the United Kingdom 2014/15 (the Code). Under the Code, local authorities produce accounts that are compliant with International Financial Reporting Standards (IFRS) as set out by the Code.
- 2.2. The primary statements of the Accounts are set out below. A full description of the nature and use of each statement is included before each of the statements:
 - The Movement in Reserves Statement
 - The Comprehensive Income and Expenditure Statement
 - The Balance Sheet
 - The Cash Flow Statement.
- 2.3. In addition to the primary statements, the Accounts contain:
 - Notes explaining or analysing further the figures in the primary statements.
 - Housing Revenue Account (HRA) Statements and explanatory notes. The HRA figures are included in the figures in the primary statements.
 - The Collection Fund, showing the amounts raised and collected through taxation. Only
 the council's entitlement to taxation is included in the primary statements. The amounts
 collected on behalf of the government and the Greater London Authority are not included
 apart from amounts owing to or from those bodies.
 - Trust Funds and Other Third Party Funds. These are funds that the council manages on the behalf of other people or organisations. The balances are not included in the primary statements.
 - Pension Fund Accounts. These are the funds the council manages, to provide future retirement benefits for its employees. The funds are not included within the primary statements.
- 2.4. The Code requires local authorities to consider all their interests and to prepare a full set of group financial statements where they have material interests in subsidiaries, associates or joint ventures. The council does not have material interests in such bodies and accordingly is not required to prepare group financial statements.

3. THE REVENUE BUDGET

- 3.1. The council's expenditure and income is defined as either revenue (spending on day to day services) or capital (spending on items that provide a benefit for more than one year such as major building works). Revenue expenditure and income is divided between 'General Fund' (all services excluding council housing) and the 'Housing Revenue Account' (a separate account for the council acting as a housing landlord).
- 3.2. In February 2014, Council Assembly set a net budget for the year 2014/15 of £308.230 million. The council's use of resources for the year was £306.447 million and the balance of £1.783 million was transferred to reserves.

General fund	Original budget	Budget movement	Revised budget	Spend in year	Variance before use of reserves	Net movement in reserves	Total use of resources	Variance after use of reserves
	£000	£000	£000	£000	£000	£000	£000	£000
Children's and adults services Environment and	203,078	(9,458)	193,620	198,754	5,134	(4,996)	193,758	138
leisure	72,359	(933)	71,426	73,877	2,451	(2,451)	71,426	-
Housing and community services Public Health Chief executive's	36,519 (264)	3,309 264	39,828	39,661 (228)	(167) (228)	135 228	39,796	(32)
department	18,365	(1,254)	17,111	17,880	769	(787)	17,093	(18)
Finance and corporate services Support cost recharges Contingency	38,342 (57,956) 4,000	(1,602) 11,448 (1,774)	36,740 (46,508) 2,226	30,734 (46,508)	(6,006) - (2,226)	4,135 - 2,226	34,869 (46,508) 2,226	(1,871) - -
Total general fund	044440		044440		(2=2)	(4.540)	040.000	(4 =00)
services	314,443	-	314,443	314,170	(273)	(1,510)	312,660	(1,783)
Use of reserves to underwrite base budget	(6,213)	-	(6,213)	-	6,213	(6,213)	(6,213)	-
Net revenue budget	308,230	-	308,230	314,170	5,940	(7,723)	306,447	(1,783)

3.3. Support cost recharges (SCR) are the costs of the central departments of finance and corporate services and chief executive's departments and the customer services centre, which are recharged to service departments with accompanying budgets.

Council tax

3.4. As well as collecting council tax to fund its own services, the council collects on behalf of and pays over to the Greater London Authority (GLA) a sum of money for services it provides, such as policing, community support officers, fire services and transport. This is referred to as the GLA precept. This was £25.3 million in 2014/15 (£24.7 million in 2013/14). Therefore the total demand on the council taxpayer is made up of two elements; an amount for GLA services and an amount for services provided by the council. The contributions from the taxpayer, expressed as amounts charged to a Band D taxpayer, are:

Southwark Council Tax requirement	912	912
GLA Precept	299	303
Total Council Tax charge (Band D equivalent)	1,211	1,215

3.5. In line with the corporate objectives and the council's Medium Term Resources Strategy, council tax increases have been contained within the rate of inflation (RPI), and have remained below the London average.

Housing Revenue Account

3.6. The Housing Revenue Account (HRA) is the means by which the council meets its statutory requirement to account separately for local authority housing provision. The table below summarises the HRA income and expenditure and movement on balances for 2014/15.

	2014/15 £000	2013/14 £000
Income Expenditure	(290,231) 267,738	(280,506) 144,834
Net cost of services	(22,493)	(135,672)
Non operating costs Net statutory accounting adjustments	(46,861) 66,877	(6,292) 150,251
(Increase)/Decrease in the HRA Balance	(2,477)	8,287
HRA Balance at 1 April (Increase)/Decrease in the HRA Balance	(23,468) (2,477)	(31,755) 8,287
HRA Balance at 31 March	(25,945)	(23,468)

Summary of reserves and balances

3.7. In line with the Medium Term Resources Strategy (MTRS), the council has maintained appropriate earmarked reserves, in order to mitigate future risks, fulfil future commitments already made, and to provide resources to enable service to transform over time. The council has a target of increasing its General Fund balance to £20 million.

Reserve Group	31/03/2015 £000	31/03/2014 £000	31/03/2013 £000
General Fund	18,125	18,125	18,125
Corporate projects and priorities Service reviews and improvements Capital programme and other capital investment Strategic financing, technical liabilities and future financial risks	16,866 27,922 30,345 29,645	11,219 29,816 31,898 37,785	11,029 19,257 32,249 36,304
Schools	19,292	17,290	16,245
HRA and major repairs reserve	65,486	33,737	72,919

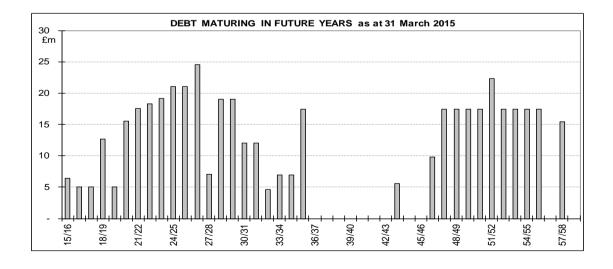

4. CAPITAL PROGRAMME

4.1. Southwark has one of the largest capital investment programmes in London, with current plans to spend £1,878 million (General Fund £508 million 2015/16 – 2023/24, Housing Investment Programme £1,370 million 2015/16 – 2021/22). The spend in 2014/15 was:

	2014/15 £000	2013/14 £000
Children's and adults' services Environment and leisure Housing and community services	25,837 22,252 1,974	21,049 16,973 1,308
Finance and corporate services Chief executive's department	8,205 22,498	5,676 18,449
Total General Fund	80,766	63,455
Housing Investment Programme	168,597	117,064
Total	249,363	180,519
Financed by:		
Using capital receipts received from the sale of assets Specific grants and other contributions Sums set aside from revenue	111,525 94,379 24,889	16,398 65,262 34,583
Contribution from the Major Repairs Reserve	18,570	64,276
Total	249,363	180,519

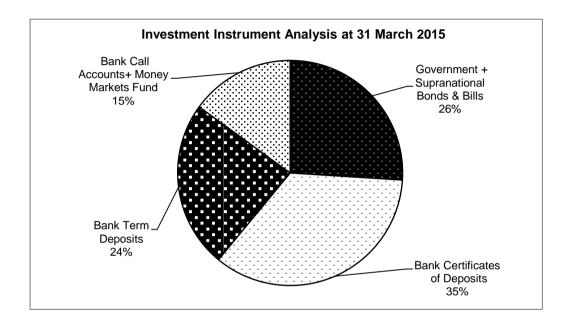

5. BORROWING FACILITIES

5.1. The council borrows money to support its capital financing requirement. The borrowing outstanding as at 31 March 2015 is £469 million (£475 million at 31 March 2014). All loans are from the Public Works Loans Board (PWLB, a body operating within the UK Debt Management Office, an Executive Agency of HM Treasury) at fixed rates. The average rate of interest payable is 5.46% at 31 March 2015 (5.44% at 31 March 2014) and the average life of all loans is 21 years. The maturity profile of the debt at 31 March 2015 is set out in the chart below..

6. INVESTMENTS

- 6.1. The council invests its cash in GBP bonds, bills and money market instruments. The bonds and bills are issued by the UK government or supranational entities such as the European Investment Bank and the World Bank. The money market investments are in short term call accounts, money market funds, term deposits and certificates of deposits issued by major UK and international banks or building societies. The cash held in investments at 31 March 2015 was £166 million (£157 million at 31 March 2014).
- 6.2. Investments held at 31 March 2015 can be shown by classes of instrument as follows:

6.3. The maturity and ratings of investments held at 31 March 2015 were:

INVESTMENT MATURITY PROFILE AND RATING at 31 March 2015								
Year Band	Α	AA	AAA	Total				
Up to 1 Year	60%	25%	9%	94%				
1-2 Years	0%	0%	2%	2%				
2-5Years	0%	4%	0%	4%				
Total	60%	29%	11%	100%				

6.4. Ratings refer to long term rating issued by Fitch rating or equivalent. Money market funds have no long term rating, but an AAA short term rating and are included under Band A.

7. PENSIONS

7.1. The council offers retirement pensions to its staff and makes contributions to pension schemes on their behalf. These pension schemes include the council's own pension fund, the accounts of which are at page 93. Other pension schemes are operated by the London Pension Fund Authority (LPFA) and the Teachers' Pensions Agency (TPA) and the National Health Service (NHS).

7.2. The council's accounts are prepared in accordance with International Accounting Standard 19 – Employee Benefits (IAS 19), which requires that the accounts reflect the employees' pension rights as they are earned in a year. Each year at 31 March actuaries assess the value of assets in the pension funds, the difference between contributions made and benefits earned, and project these forward using factors, as set out in Note 40, to calculate a figure representing the outstanding liability of the council to each pension fund. These liabilities are:

	LGPS	LPFA	Total
	£000	£000	£000
Opening liability as at 1 April 2014	(484,300)	(2,762)	(487,062)
Closing liability as at 31 March 2015	(483,700)	(7,586)	(491,286)
Movement in year	(600)	4,824	4,224
Represented by: Remeasurements Net difference between actuarial and actual costs charged in the year Movement in year	(16,000)	4,881	(11,119)
	15,400	(57)	15,343
	(600)	4,824	4,224

- 7.3. The TPA and NHS schemes are run on a different basis from the others above, and are not required to be accounted for in this way under IAS 19. There is no separate liability included in the council's accounts.
- 7.4. The operation of the council's pension fund is regulated by statute. It is revalued every three years, and this valuation is used to set the level of contributions by the council towards the fund, rather than considering the pensions rights earned per IAS 19. The assumptions under this valuation use a longer timeframe than IAS 19, and incorporate assumptions on the plan to eliminate any outstanding liability, which also is not taken into account under IAS 19 in assessing the outstanding liability at a fixed point. The last revaluation of the council's pension fund on this basis was as at 31 March 2013, giving an actuarial present value of promised retirement benefits of £456.1 million (£612.2 million at the last valuation of 31 March 2010). From this, the actuary recommended to the council, as employer, a contribution structure, the details of which are given in Note 4 to the Pension Fund Accounts.

STATEMENT OF RESPONSIBILITIES

The council's responsibilities

The council is required:

- To make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In Southwark that officer is the strategic director of finance and corporate services
- To manage its affairs to secure economic, efficient and effective use of resources, and safeguard its assets, and
- To approve the Statement of Accounts.

The strategic director of finance and corporate services' responsibilities

The strategic director of finance and corporate services is responsible for the preparation of the council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15 (the Code).

In preparing the Statement of Accounts, the strategic director of finance and corporate services has:

- selected suitable accounting policies and then applied them consistently
- · made judgements and estimates that were reasonable and prudent
- · complied with the Code

The strategic director of finance and corporate services has also:

- · kept proper accounting records which were up to date, and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

MOVEMENT IN RESERVES STATEMENT

This statement shows the movement in the year on the different reserves held by the council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the council's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for council tax setting and dwellings rent setting purposes. The Net Increase/Decrease before the Transfers to Earmarked Reserves line shows the statutory General Fund Balance and Housing Revenue Account Balance before any discretionary transfers to or from earmarked reserves have been undertaken by the council. Schools' balances, which form part of earmarked reserves, total £19.292 million (£17.290 million at 31/03/2014).

MOVEMENT IN RESERVES, 2014/15

	General Fund Balance	Earmarked General Fund Reserves	Schools balances and DSG reserve	HRA Balance	Major Repairs Reserve	Capital Receipts Reserve	Capital Grants Unapplied	Total Usable Reserves	Total Unusable Reserves	Total Reserves of the council

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. The council raises taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

BALANCE SHEET

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the council. The net assets of the council (assets less liabilities) are matched by the reserves held by the council. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

CASH FLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the council during the reporting period. The statement shows how the council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the council are funded by way of taxation and grant income or from the recipients of services provided by the council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the council.

	Note	2014/15 £000	2013/14 £000

Cash and cash equivalents at the end of the reporting period	20	18,955	7,783

NOTES TO THE ACCOUNTS

1. ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

1.1. The Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 introduced a number of changes to accounting standards, set out below, that are required from 1 April 2015. The changes, if adopted in 2014/15 would have had no material impact on the accounts.

IFRS 13 Fair Value Measurement

1.2. The standard defines fair value; sets out a framework for measuring fair value; and requires disclosures about fair value measurements. It applies to all assets and liabilities covered by those IFRS standards that require or permit fair value measurements or disclosures about fair value measurements (and measurements, such as fair value less costs to sell, based on fair value or disclosures about those measurements), except in specified circumstances.

Annual improvements to IFRS 2011-2013 cycle

1.3. The improvements relate specifically to IFRS 1 – First Time Adoption of IFRS, IFRS3 – Business Combinations, IFRS13 Fair Value Measurement and IAS40 – Investment Property.

IFRIC 21 Levies

1.4. The standard provides guidance on when to recognise a liability for a levy imposed by the government.

2. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

St Michael's Catholic College, St Thomas the Apostle College and Sacred Heart Catholic School

- 2.1. St Michael's, St Thomas and Sacred Heart are voluntary aided secondary schools. St Michael's became operational in January 2011, St Thomas in February 2012 and Sacred Heart in September 2014. The schools have been built and operated under PFI arrangements, under 25 year contracts with 4 Futures Ltd, the majority shareholder of which is Balfour Beatty Education Ltd.
- 2.2. The assets of voluntary aided schools are deemed not to be assets of the council for reasons set out in Note 2.4 2.5 below. Even though the council has the obligation to make payments under PFI arrangements to 4 Futures Ltd for operating the schools and reimbursement of the capital expense incurred, the council does not have an interest in the assets. In 2011/12, the assets recognised as part of the PFI arrangements for St Michael's and St Thomas were discharged from Property, Plant & Equipment to the Consolidated Income and Expenditure Statement (PFI derecognition), and then moved to the Capital Adjustment Account. Similarly, in 2014/15 the asset related to the PFI arrangement for Sacred Heart went through the same accounting treatments, i.e it was recognised and discharged, at the value of the obligation of £19.173 million, to the Consolidated Income and Expenditure Statement (PFI derecognition), and then moved to the Capital Adjustment Account.
- 2.3. Further details of the financial arrangements for St Michael's, St Thomas and Sacred Heart, and the obligations outstanding, can be found in Note 37.

Accounting for schools non-current assets

- 2.4. In 2014/15 the results of CIPFA's consultation on schools assets came into effect which meant that for the first time there was an onus on the council to consider whether the assets of foundation and voluntary aided schools in the borough should be consolidated into its accounts.
- 2.5. After an extensive assessment the council has concluded that the assets of foundation and voluntary aided schools in the borough should not be brought on to the Balance Sheet as these assets are not controlled by the council but rather by whichever trust or religious body is associated with each individual school.

Integrated waste management facility

2.6. The integrated waste management facility at the Old Kent Road became operational in February 2012. This is a facility constructed by Veolia Environmental Services under a 25 year PFI contract for the collection and disposal of waste in the borough. The scheme has been evaluated in accordance with IFRS accounting practices, and it is considered that the council has an interest in the asset which should be reflected in the council's Balance Sheet, with a matching liability to make capital repayments as part of the unitary charges. The council has separated Waste PFI contract payments between elements that vary according to availability of the property and another element that varies according to usage or performance of services using estimation techniques in accordance with the code. The property and related liability is measured at the fair value of the asset and the payments allocated between: (a) repayment of liability, (b) finance charge and (c) service element. The council further considers that payments prior to the asset becoming operational reasonably represent the fair value of services. Further details of the financial arrangements for the waste management contract, and the obligations outstanding, can be found in Note 37.

Heat and energy supply arrangement

2.7. The Heat Supply PFI Arrangement with Veolia Environmental Services became operational in November 2013. It placed piping and associated facilities to deliver heating to council residents and related services in order to fulfil the council's mandate of delivering services to the public. It has been assessed as a service concession in accordance with IFRS accounting practice. Unitary charges are payable until 2033 and allocated as charges for service, interest and principal.

Fair value of PFI liabilities

2.8. The council has assessed the fair value of its PFI liabilities to be a close approximate of their carrying value. The council has used present value techniques in its assessment, the details of which are disclosed in more detail at note 18.7.

HRA depreciation, impairment & valuation losses

- 2.9. Since 1 April 2012, the HRA has operated on a self-financing basis, with transitional arrangements in place for five years. Following this change, no provision exists at present to reverse out charges made to the HRA for impairment and valuation losses relating to non-dwelling assets. This is a change from previous accounting arrangements and has an impact on HRA usable reserves. There is uncertainty as to whether this is an intended consequence of the implementation of self-financing, but until clarification is provided, the council will continue to follow CIPFA advice and guidance.
- 2.10. During the transitional period, where the depreciation charge for dwellings is greater than the Notional Major Repairs Allowance, authorities are permitted to make an adjustment for the difference so that there is no impact on HRA usable reserves. In 2014/15, the council chose this option and made an adjustment of £10.706 million for excess dwellings depreciation over the Notional Major Repairs Allowance.

3. ACCOUNTING ESTIMATES

Valuation of property, plant and equipment

- 3.1. A full valuation of the council's housing stock using the Beacon method is undertaken as at 1 April each year. In 2014/15 the council's internal valuation service has assessed that significant capital growth in the value of housing stock has taken place during the year. This is attributable to the continued improving London residential market that has been widely reported in the media. A desktop valuation was undertaken with an effective revaluation date of 31 March 2015, using indices comprised of figures underpinned by a range of data from actual property sales, which were used to determine uplift factors to be applied to assets within the individual beacon groups. A full revaluation of the stock on a beacon basis will be undertaken effective 1 April 2015.
- 3.2. The requirements of the Code specify that the carrying amount of assets should not differ materially from that which would be determined using the fair value at the end of the reporting period. To ensure the council complies with this requirement assets held at fair value are revalued on a rolling basis such that assets are revalued every five years as a minimum.

Assets are revalued more frequently where there is indication that a material change in fair value has taken place (see Accounting Policies for how this assessment is made). Financial instruments

- 3.3. All council borrowing outstanding at 31 March 2015 are from the Public Works Loans Board PWLB). The debt is at fixed rates, with an average maturity of 21 years. There is no exposure to variable rate debt. The maturity profile of the debt is set out in the explanatory foreword and the council may draw loans from the PWLB if needed. A 1% rise in discount rates at Balance Sheet date would lower the fair value by £90 million and a 1% fall would raise it by £114 million. As the debt is held at amortised cost there would be no impact on the comprehensive income and expenditure statement from such changes, unless the debt was extinguished. Legislation would then require a charge to be taken to the Financial Instruments Adjustment Account. There is no exposure to variable rate debt. The maturity profile of the debt is set out in the explanatory foreword and the council may draw loans from the PWLB if needed. A 1% rise in discount rates at Balance Sheet date would lower the fair value by £90 million and a 1% fall would raise it by £114 million. As the debt is held at amortised cost there would be no impact on the comprehensive income and expenditure statement from such changes, unless the debt was extinguished. Legislation would then require a charge to be taken to the Financial Instruments Adjustment Account.
- 3.4. The overall average life of council investments is 0.5 years and the modified duration is also 0.4 years. Within that, the available-for-sale investments have an average life of 0.6 years and a modified duration of 0.6 years. A 1% change in discount rates on available-for-sale investments at Balance Sheet date would change the fair value by £1.1 million and would be reflected in the Balance Sheet in the available-for-sale reserve. There would be no impact on the comprehensive income and expenditure statement, unless the investments were realised. A 1% change in discount rates on loans and receivable investments at the Balance Sheet date would change the fair value by £0.1 million, but as these are held at amortised cost there would be is no impact on the comprehensive income and expenditure statement unless the investments were extinguished.

Impairment of debtors (bad debt provisions)

3.5. At 31 March 2015, the council had a balance of short term debtors of £166.042 million. The different classes of debtors within this balance are individually assessed to determine any potential impairment losses as a result of not being able to collect the moneys due, and for 2014/15 this was assessed as £47.304 million, which is 28% of the total debtor balance as at 31 March 2015. If collection rates were to deteriorate, an increase of 1% in non-collection would require an additional £1.660 million to be set aside as an allowance for the impairment of debtors:

	£000
Council Tax	186
Business Rates	29
Housing Rents	174
Housing Benefit Overpayments	215
Sundry Debtors	1,056
Total	1,660

Long term obligations - PFI and similar schemes

- 3.6. The council has entered a number of long term contracts to provide services and assets under PFI and schemes of a similar nature, as set out in Note 37. These contracts commit the council to significant levels of contract payments over the lives of the contracts. At 31 March 2015 the future obligation to make payments was £757 million, of which £36 million falls in 2015/16.
- 3.7. The estimated payments due under each of the schemes are set out in complex models, and there are uncertainties in the prediction of total future costs due to:
 - The lengths of the expected contracts (typically 25 years)
 - Variability in the indexation and discount rates to be applied during the contract
 - Changes in usage under the contracts
 - Performance by the contractor under the contract.

3.8. The complexity of the payment models and the periods of time concerned mean that small changes in assumptions could lead to material changes in the estimation of total liability under the contracts. Estimates of the range of possible variations have not been costed for the purposes of the Accounts.

Defined benefit pension amounts and disclosures

- 3.9. The council recognises its outstanding liabilities to meet future pensions costs, and accounts for those liabilities in accordance with IAS 19. At 31 March 2015 the outstanding liability was assessed at £491.286 million (£487.062 million 2013/14). For two of the pension funds the council contributes to, its own and that of the London Pension Fund Authority, the council's outstanding liability is assessed by consulting actuaries to each fund. These assessments require significant estimation, and the estimates and assumptions are set out in detail in Note 40.
- 3.10. Estimation by the actuaries of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. The effects on the net pensions liability of changes in individual assumptions can be measured. A sensitivity analysis to changes in assumptions is provided at note 40.9.

Collection Fund surplus/deficit

3.11. As a billing authority, the council is required by law to estimate the surplus or deficit arising on the Collection Fund for the end of each financial year by January 15 of that year. Previously, the deficit or surplus was attributable solely to the council tax account, but from 2013/14 the business rates account can also generate a surplus or deficit due to the introduction of the business rates retention scheme. The council is also required to apportion the council tax surplus or deficit between authorities according to their respective proportion of the total for demands and precepts for that year, and apportion the business rates surplus or deficit between authorities and central government according to their respective shares. These apportionments are recovered in the following year. The Collection Fund Adjustment Account absorbs the effect of timing differences between statutory requirements and full accruals accounting.

4. MATERIAL ITEMS OF INCOME AND EXPENSE

4.1. In 2013/14, the council reduced future financing liabilities by paying off £85 million in PWLB loans, £80 million of which related to the HRA and the remainder to the General Fund. The General Fund repayment was financed out of the minimum revenue provision. £36 million of the HRA repayment was financed in 2013/14 and £19 million in 2014/15 out of provisions from balances, capital receipts and the major repairs reserve, with the remainder to be financed in the future over a number of years and in the meantime settled by drawing on cash balances.

5. EVENTS AFTER THE BALANCE SHEET DATE

5.1. There are no significant post balance sheet events to be disclosed at the time of preparing these statements.

6. ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

- 6.1. This note details the adjustments made to the total comprehensive income and expenditure recognised by the council in the year and to the resources that are specified by statutory provisions as being available to the council to meet future capital and revenue expenditure. This is in accordance with proper accounting practice
- 6.2. The following sets out a description of the reserves that the adjustments are made against.

General Fund balance

6.3. The General Fund is the statutory fund into which all the receipts of an authority are required to be paid and out of which all liabilities of the council are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund balance, which is not necessarily in accordance with proper accounting practice. The General Fund balance therefore summarises the resources that the council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the council is required to recover) at the end of the financial year. However, the balance is not available to be applied to funding HRA services.

Housing Revenue Account balance

6.4. The Housing Revenue Account balance reflects the statutory obligation to maintain a revenue account for local authority council housing provision in accordance with Part VI of the Local Government and Housing Act 1989. It contains the balance of income and expenditure as defined by the 1989 Act that is available to fund future expenditure in connection with the council's landlord function.

Major repairs reserve

6.5. The Major Repairs Reserve controls an element of the capital resources limited to being used on capital expenditure on HRA assets or the financing of historical capital expenditure for the HRA. The balance shows the capital resources that have yet to be applied at the year-end.

Capital Receipts Reserve

6.6. The Capital Receipts Reserve holds the proceeds from the disposal of land and other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year end.

Capital Grants Unapplied

6.7. The Capital Grants Unapplied account holds the grants and contributions received towards capital projects for which the council has met the conditions that would otherwise require repayment of the income but which has yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and or the financial year in which this can take place.

	General Fund Balance	Housing Revenue Account	Major Repairs Reserve	Capital Receipts Reserve	Capital Grants Unapplied	Movement in Unusable Reserves
2014/15	£000	£000	£000	£000	£000	£000

11. NOTES ON MAJOR RESERVES

- 11.1. Modernisation, service and operational improvement reserve. This reserve is for one-off expenditure that may be incurred over more than one year on projects that are designed to modernise and improve service levels and operational efficiency of the council's activities. By its nature it is not appropriate for the costs of these projects to be included within annual revenue budgets. Schemes will range across all council services but will be especially relevant for transformational priorities such as information technology, customer services and accommodation strategies. Schemes funded by this reserve may be of either a capital or revenue nature.
- 11.2. Regeneration and development reserve. This reserve is to fund one-off expenditure that may be incurred over more than one year and by its nature is not appropriate to be included within annual revenue budgets, to facilitate the significant regeneration and development taking place in the borough. Projects include the Elephant & Castle, Canada Water, Southwark Schools for the Future, land acquisitions and other significant one-off costs associated with these projects. Schemes funded by this reserve are predominantly of a capital nature.
- 11.3. Financial risk and future liabilities reserve. This reserve is set aside against future financial risks that may arise. For example, taxation risks, legislative and funding changes including actions involving the Greater London Authority and other government bodies, risks as a result of unavoidable changes in accounting practice, and circumstances in so much as they represent uninsured risks.

- 16.1. The valuation of assets has been carried out by the council's internal valuation service, led by Matthew Jackson MRICS BSc. The effective date of annual revaluations and of the rolling cycle of revaluations is 1 April of the relevant accounting period. The effective date of valuations arising from capital expenditure, physical impairment, or material changes in the value of assets in a sector, is 31 March of the relevant accounting period.
- 16.2. The entire housing stock is valued on an annual basis, with estates under development and other potential impairments reviewed during the year. Impairments have been charged to the Comprehensive Income and Expenditure Statement and on to the Capital Adjustment Account.
- 16.3. The council's internal valuation service has assessed that significant capital growth in the value of housing stock has taken place during the year. This is attributable to the continued increase in the London residential house prices that has been widely reported in the media. A desktop valuation was undertaken with an effective revaluation date of 31 March 2015, using indices comprised of figures underpinned by a range of data from actual property sales, which were used to determine uplift factors to be applied to assets within the individual beacon groups. A full revaluation of the stock on a beacon basis will be undertaken effective 1 April 2015.
- 16.4. At 31 March 2015, the council has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2015/16 and future years budgeted to cost £215.2 million. Similar commitments at 31 March 2014 were £148.8 million. The projects with major commitments are:
 - Making all council dwellings warm, dry and safe £69.9 million
 - Housing Direct Delivery scheme £36.5 million
 - Four Squares Estate improvements £13.9 million
- 16.5. Infrastructure Assets contains a balance of £76.1 million that represents the current depreciated historic cost value of capital expenditure on infrastructure up to 31 March 2007. This balance is effectively treated as a single 'consolidated' asset as we do not currently have sufficient information to disclose at the level of individual assets and obtaining such information would be impracticable. The balance is depreciated on a straight line basis over 40 years.
- 16.6. A review of PP&E Under Construction was undertaken during the year, which led to an amount of £67.4 million being either transferred to other classes of PP&E as the assets became operational (£16.6m); or written out to the capital adjustment account (£50.8m).

17. INCOME, EXPENDITURE AND CHANGES IN FAIR VALUE OF INVESTMENT PROPERTIES

17.1. The income and expenditure on investment assets was as follows:

Net (gain)/loss included in Financing & Investment Income in the CIES	(17,674)	(13,143)
Direct operating expenses arising from investment property	3,117	2,931
Fair value adjustments	(10,445)	(5,268)
Rental income from investment property	(10,346)	(10,806)
	£000	£000
	2014/15	2013/14

17.2. The movement in the fair value of investment properties held was as follows:

	2014/15 £000	2013/14 £000
Balance as at 1 April	121,472	118,721
Additions:		
Subsequent expenditure	829	75
Disposals	(6,318)	(849)
Net gains/(losses) from fair value adjustments	10,445	5,268
Transfers:	4	
To/From Property, Plant and Equipment	(28)	(1,743)
Balance as at 31 March	126,400	121,472

Properties held under operating leases

- 17.3. The council holds a number of properties as lessee, held as operating leases, which are then sub-leased out as investment properties. The income and expenditure on these leases is included above in Note 17.1, but being operating leases, are not included with property, plant & equipment.
- 17.4. The properties held under operating leases are the industrial estates at Sandgate Street and Dockley Road, and workshops on Riley Road. The council also rents out property for shops, community, and commercial use, including the Surrey Quays Shopping Centre on Redriff Road.

18. FINANCIAL INSTRUMENTS

18.1. The following categories of financial instrument assets are carried in the Balance Sheet:

	Long Term	Long Term	Short Term	Short Term
	31/03/15	31/03/14	31/03/15	31/03/14
	£000	£000	£000	£000

Fair values of assets and liabilities

18.4. Fair value is the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's-length transaction. The fair values of financial assets and financial liabilities are shown in the table below.

Net Total	(365,551)	(606,329)	(429,580)	(570,113)
	·	•	·	•
Debtors – short term	114,598	114,598	100,031	100,031

Financial liabilities – short term	(11,763)	(11,763)	(11,113)	(11,113)
Financial liabilities – long term	(462,851)	(703,629)	(469,235)	(609,768)
Fair values of Assets and Liabilities				
	£000	£000	£000	£000
	amount		amount	
	Carrying	Fair value	Carrying	Fair value
		2014/15		2013/14

- 18.5. In the tables above short term creditors and short term debtors at 31/3/2014 have been restated following a review of their treatment.
- 18.6. Financial liabilities and financial assets represented by loans and receivables and long-term debtors and creditors are carried on the Balance Sheet at amortised cost. The long term financial liabilities represent loans from the Public Works Loans Board (PWLB).
- 18.7. Present value techniques are used to estimate the fair value of PWLB loans and the discount rate used is the premature redemption rate quoted by the PWLB at balance sheet date. The carry cost of these loans is lower that the fair value on account of the discount rate being lower than coupon rate.
- 18.8. Other long term liabilities include PFI liabilities at a carrying amount of £109 million at 31/03/2015 (£92 million at 31/03/2014). These liabilities are notional and need not reflect actual liability carried by the PFI provider. The council considers the carrying amount of PFI liabilities to be a close approximation to their fair value. In arriving at its assessment, the council has taken the following into account:
 - The PFI liability is a division of the unitary payments which are payable over the life of the PFI schemes. At inception the unitary payments are assessed and separated for the accounting purposes between the service element and financing element, but are not separable contractually. The financing element includes a credit spread over the risk free rate to take account of the uncertainty inherent in these projects over the project lifetime.
 - The council has used present value techniques in accordance with accounting standards
 to confirm its assessment that the carrying amount of PFI liabilities is a close estimate of
 fair value. As this technique is applied under condition of uncertainty (the unitary
 payments are for example subject to non-performance risk), it recognises that market
 participants generally seek compensation (i.e. a risk premium) for bearing the uncertainty
 inherent in the cash flows.
 - In applying the technique and in the interest of consistency, the council ensured that the technique was calibrated to the fair value assessed at initial recognition. The council considered no material changes were needed for example from any:
 - new market developments
 - new information
 - improvements in valuation technique, or
 - market condition changes

- Given the complex nature of PFI arrangements, there are different ways to consider fair value of the liability. An alternative way to consider fair value might be to discount the liability at an entirely "risk free" rate without a credit spread. For example, this could be the rate that the council might be able to borrow at from the Public Works Loan Board. If this were used, the fair value of the PFI liability at balance sheet date would be £200m at 31/03/15 (£124 million at 31/03/14).
- 18.9. Available for sale assets are carried in the Balance Sheet at their fair value. These fair values are based on market quotations where there is an active market for the instrument.
- 18.10.Long term borrowings falling for repayment in the future:

	2014/15 £000	2013/14 £000
Less than 1 year Between 1and 5 Years Between 5 and 10 Years Between 10 and 20 Years Over 20 Years	6,384 27,688 91,554 133,247 210,363	5,658 29,072 75,480 147,332 217,352

	2014/15 £000	2013/14 £000	2014/15 £000	2013/14 £000
	Current	Current	Non Current	Non Current

21.1. Non-current Assets Held for Sale includes a balance of £75 million as at 31 March 2015, comprising two assets that constitute the council's interest in the Potters Field development, a mix of residential, commercial and cultural use property overlooking Tower Bridge. The council's interest in the development has been valued by the council's Valuer and constitutes the value of the land the council has contributed to the development plus its share of the projected net receipt of the scheme. The council's share of the net receipt will be used towards funding the council's long-term social housing and regeneration programme.

22. CREDITORS

	Short Term Creditors £000	2014/15 Long Term Creditors £000	Short Term Creditors £000	2013/14 Long Term Creditors £000
Central government bodies	12,988	-	17,181	-

Public corporations and trading funds	83	-	44	-
Other entities and individuals	85,903	7,505	97,901	5,438
Total	123,986	7,505	137,368	5,438

23. USABLE RESERVES

23.1. Movements in the council's usable reserves are detailed in the Movement in Reserves Statement on page 16. Reserves are set aside against the General Fund, Housing Revenue Account (HRA) and schools, each of which are subject to restrictions in their use and separate legal duties. A detailed analysis of General Fund earmarked reserves is provided in notes 7 to 11 and of schools balances in note 12. Further analysis of the HRA balance and Major Repairs Reserve is set in notes 6 and 7 to the HRA statements.

24. UNUSABLE RESERVES

24.1. Unusable reserves are those that the council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'. The Unusable Reserves comprise:

	2014/15 £000	2013/14 £000
Capital Adjustment Account Financial Instruments Adjustment Account Revaluation Reserve Available for Sale Financial Instruments Reserve Pensions Reserve Deferred Capital Receipts Collection Fund Adjustment Account Accumulating Compensated Absences Adjustment Account	2,210,565 (24,954) 1,092,764 133 (491,286) 44,829 (5,341) (7,061)	2,164,130 (32,430) 688,181 (8) (487,062) 7,219 (8,222) (6,496)
Total unusable reserves	2,819,649	2,325,312

Capital Adjustment Account

24.2. The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the council. The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains. Note 6 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

	2014/15 £000	2014/15 £000	2013/14 £000	2013/14 £000

Financial instruments adjustment account

- 24.3. The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions.
- 24.4. Amongst the transactions on this Account are premiums paid on the early redemption of loans. Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out to the in the Movement in Reserves Statement. Over time the expense is posted back to the Movement in Reserves Statement in accordance with statutory arrangements for spreading the burden on council tax. As a result, the balance on the Account at 31/03/15 includes £21.016 million premiums (£28.261 million at 31/03/14) to be discharged in future.

Balance at 31 March	(24,954)	(32,430)

Balance at 1 April	(32,430)	(26,383)
	2014/15 £000	2013/14 £000

Revaluation reserve

- 24.5. The Revaluation Reserve contains the gains made by the council arising from increases in the value of its property, plant and equipment and intangible assets. The balance is reduced when assets with accumulated gains are:
 - revalued downwards or impaired and the gains are lost
 - · used in the provision of services and the gains are consumed through depreciation, or
 - disposed of and the gains are realised.
- 24.6. The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2014/15 £000	2014/15 £000	2013/14 £000	2013/14 £000

Difference between fair value depreciation and historical cost depreciation		(14,616)		(7,621)
Balance at 31 March	-	1,092,764	-	688,181

Pensions Reserve

24.7. The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The council accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

Balance at 31 March	(491,286)	(487,062)
and Expenditure Statement Employer's pension contributions and direct payments payable to pensioners in the year	38,270	34,921
Remeasurements of the net defined benefit liability Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income	11,119 (53,613)	226,861 (70,123)
Balance at 1 April	(487,062)	(678,721)
	2014/15 £000	2013/14 £000

Deferred Capital Receipts Reserve

24.8. The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of noncurrent assets but for which cash settlement has yet to take place. Under statutory arrangements, the council does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

	2014/15 £000	2013/14 £000

assets Proceeds from sale of short term investments (not considered to be	(873)	(20,548)
cash equivalents) Capital grants and contributions received	106,639	77,862
Net cash flows from Investing Activities	(39,566)	(44,060)

26.1. Short and long term investments are instruments held as part of the cash management activities of the council, not as an investment activity in its own right. The figures above are the net movements in investments held, not gross purchases and sales.

27. CASH FLOWS FROM FINANCING ACTIVITIES

	2014/15 £000	2013/14 £000
Cash payments for the reduction of the outstanding liability relating to a finance lease and on-Balance Sheet PFI contracts	(3,153)	220
Repayments of short and long term borrowing Other payments for financing activities	(5,734)	(85,719) (9,850)
Net Cash flows from Financing Activities	(8,887)	(95,349)

28. AMOUNTS REPORTED FOR RESOURCE ALLOCATION DECISIONS

- 28.1. The analysis of income and expenditure by service on the face of the Comprehensive Income and Expenditure Statement is that specified by the Service Reporting Code of Practice. However, decisions about resource allocation are taken by the council's Cabinet on the basis of budget reports analysed across services. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:
 - charges for depreciation and defined benefit schemes (IAS19) are reported on an estimated rather than actual basis
 - charges for revaluation and impairment losses, gains and losses on disposal of assets and accumulated absences are not reported.
- 28.2. The income and expenditure of the council's principal services recorded in the budget reports for the year is as follows:

Total income Employee expenses Other service expenses Support service recharges Total expenditure	(254,776)	(32,336)	(10,357)	(26,307)	(8,781)	(265,335)	(290,700)	(46,508)	(935,100)

29. MEMBERS' ALLOWANCES

29.1. The amount of members' allowances and expenses paid in 2014/15 was £1,244,863 (£1,232,732 in 2013/14).

30. OFFICERS' REMUNERATION

30.1. The council is required by the Accounts and Audit Regulations to disclose remuneration information of its senior employees. The council is required by the Accounts and Audit Regulations to disclose remuneration information of its senior employees. The following table sets out the remuneration for senior officers whose full time equivalent salary is £150,000 per year or more.

		2014/15		2013/14
Postholder	Total remuneration	Council's contributions to the Pension Fund	Total remuneration	Council's contributions to the Pension Fund
	£	£	£	£
Chief Executive - E Kelly	214,304	30,194	173,944	24,351
Strategic Director of Environment & Leisure - D Collins	189,335	266	152,398	1,773
Strategic Director of Housing & Community Services – G Scott	180,335	532	152,398	3,547
Strategic Director of Finance & Corporate Services - D Whitfield	174,548	24,485	141,912	20,577
Strategic Director of Children's & Adult Services - R Bowen (to July 2014)	59,056	8,288	123,287	17,864
Strategic Director of Children's & Adult Services - D Quirke-Thornton (from October 2014)	55,738	7,721	-	-
Director of Public Health - Dr R Wallis	150,577	19,329	150,577	19,329

30.2. Notes to the above table:

- remuneration and pension costs reflect actual payments and contributions made in the financial year
- total remuneration figures are gross pay before individuals' contributions to the Pension Fund. They include basic salary plus any contracted additions paid during the financial year including flexible benefits and performance related pay where applicable. The award of performance related pay directly links to business outcomes. Each year work plans are agreed identifying corporate, service and personal targets from which achievements can be measured and award judged. Payment of performance related pay awarded in 2014/15 was paid in respect of the previous years during which time no performance related pay had been awarded. The distribution of this payment over three years is set out as follows:

PKP paid ii	1 2014/13 111	respect of
2013/14	2012/13	2011/12
£11,711	£11,118	£10,758
£7,589	£7,265	£7,161
£7,755	£7,179	£7,082
£7,337	£7,025	£6,925
£6,674	£6,079	£5,594
	2013/14 £11,711 £7,589 £7,755 £7,337	£11,711 £11,118 £7,589 £7,265 £7,755 £7,179 £7,337 £7,025

DDD noid in 2014/45 in reconcet of

- the remuneration of the Strategic Director of Environment & Leisure includes a payment of £9,000 in 2014/15 for her additional duties as the council's returning officer
- the director of public health post is shared equally with the London Borough of Lambeth, and the council's share of total remuneration and contribution to the pension fund is £75,289 and £9,665 respectively

30.3. During 2014/15 the council employed staff whose taxable remuneration, including payment on termination of employment, was £50,000 or more for the year. The numbers of these employees, excluding the senior officers in the table above, is shown below in bands of £5,000 (bands have been combined where necessary to ensure the remuneration of individual officers is not identified):

Band (£)	Schools	Non schools	Number of employees 2014/15	Number of employees 2013/14
50,000 - 54,999	108	98	206	200

110,000 - 114,999	-	3	3	4
115,000 – 129,999	2	6	8	5
Total	302	325	627	594

31. EXTERNAL AUDIT COSTS

31.1. The council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections, and for non-audit services provided by the council's external auditors:

	2014/15 £000	2013/14 £000
Fees payable with regard to external audit services carried out by the appointed auditor for the year (see Note 31.2)	282	273
Fees payable to the appointed auditor for the	24	24
certification of grant claims and returns for the year Fees payable in respect of other services provided by the appointed auditor during the year (see Note 31.3)	54	19
Total =	360	316

- 31.2. The appointed auditor for 2014/15 was Grant Thornton UK LLP. The fee for 2014/15 above is net of a £32,000 rebate from the Audit Commission.
- 31.3. Other services provided by the appointed auditor include National Fraud Initiative, Legal Services Review, Accounts analysis, Housing Reviews and Financial Resilience Review.
- 31.4. Fees payable with regard to the audit of the Pension Fund, of £21,000 for 2014/15 (£21,000 2013/14), are met directly by the Pension Fund and are not included in the above table.

32. DEDICATED SCHOOLS GRANT

- 32.1. The council's expenditure on schools is funded primarily by grant moneys provided by the Department for Education, the Dedicated Schools Grant (DSG). An element of DSG is recouped by the Department to fund academy schools in the council's area. DSG is ringfenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the School Finance (England) Regulations 2013. The Schools Budget includes elements for a range of educational services provided on an authority-wide basis and for the Individual Schools Budget, which is divided into a budget share for each maintained school.
- 32.2. Details of the deployment of DSG receivable for 2014/15 are as follows:

	Central Expenditure	Individual Schools Budgets	Total	Total
	£000	£000	2014/15 £000	2013/14 £000
Final DSG before academy recoupment Academy figure recouped	(40,273)	(201,390) 47,741	(241,663) 47,741	(239,179) 43,628

Balance as at 1 April	(113,376)	(98,726)
	2014/15 £000	2013/14 £000

33.3. The balance of capital grants unapplied remaining as receipts in advance were:

Balance as at 31 March	(125,218)	(113,376)
		·
Other grants individually less than £1 million	(1,192)	(1,085)
Education	(10,787)	(18,592)
Building Schools for the Future	-	(1,008)
Lottery Funds	(1,039)	(1,040)
Planning Gains	(112,200)	(91,651)
	2000	2000
	£000	£000
	2014/15	2013/14

34. RELATED PARTY TRANSACTIONS

- 34.1. The council is required to disclose material transactions with related parties bodies or individuals that have the potential to control or influence the council or to be controlled or influenced by the council. Disclosure of these transactions allows readers to assess the extent to which the council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the council. In identifying potential related party interests for councillors, the register of Members' interests has been viewed, and for chief officers, direct confirmation has been sought and obtained. Related party interests for which transactions exist in 2014/15 were declared by 23 councillors and no chief officers:
 - with voluntary bodies or charitable organisations that received funding totalling £2.2 million (£1.4 million in 2013/14). The most significant organisation is Browning Estate Management Board, which was paid £1.1 million (£0.8 million in 2013/14).
 - with businesses or other organisations that have contracted for goods and services with the council to the value of £3.0 million (£2.3m million in 2013/14). The most significant organisation is Fusion Lifestyle, which operates the council's leisure centres and was paid £2.9 million in 2014/15 (£2.3 million in 2013/14). The council has a related party interest through its appointment of three councillors to the management board each year.
- 34.2. The Government is a related party for the council, by virtue of the influence it can exert through the level of grant funding it provides. Grants received from government departments during the year and receipts outstanding at 31 March 2015 are set out in Note 33 to the accounts.
- 34.3. The Pension Fund is also a related party and the council charged the fund £0.9 million (£0.8 million in 2013/14) for expenses incurred in administering the Pension Fund.

35. CAPITAL EXPENDITURE AND CAPITAL FINANCING

35.1. The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI/PPP contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the council that has yet to be financed.

	2014/15 £000	2013/14 £000
Opening Capital Financing Requirement	803,997	848,305

36. LEASES

The council as Lessee - operating leases

- 36.1. The council pays rent on property leases, of which some are sublet.
- 36.2. Expenditure charged to services in the CIES during the year in the use of operating leases:

Total	1,199	1,236
Minimum lease payments Less sub-lease payments	1,540 (341)	1,511 (275)
	2014/15 £000	2013/14 £000

36.3. The council has obligations to make minimum lease payments in future periods of:

	2014/15 £000	2013/14 £000
Within 1 year Within 2 to 5 years After 5 years	1,437 4,978 23,704	1,360 5,114 21,606
Total	30,119	28,080

36.4. The 2013/14 comparatives for notes 36.2 and 36.3 have been restated and exclude immaterial minimum lease rentals on temporary housing accommodation.

The council as Lessor – operating leases

- 36.5. The council has industrial and commercial units which it lets out. The largest industrial sites are on Sandgate Street and Dockley Road. It also lets out workshops and property for shops, community, and commercial use, including the Surrey Quays Shopping Centre.
- 36.6. The future minimum rentals receivable under these leases are set out below:

Total due	148,593	145,197
Within 1 year Within 2 to 5 years After 5 years	9,960 27,391 111,242	9,687 26,171 109,339
Period due	31/03/2015 £000	31/03/2014 £000

37. PRIVATE FINANCE INITIATIVES AND SIMILAR CONTRACTS

- 37.1. Private Finance Initiatives (PFI) and similar contracts typically involve a private sector entity (the operator) constructing or enhancing property used in the provision of a public service, and operating and maintaining that property for a specified period of time, in return for a series of payments over the period of the arrangement.
- 37.2. A contract is determined to meet the definition of a service concession arrangement where the following two tests are met:
 - the council controls or regulates what services the operator must provide with the property, to whom it must provide them, and at what price
 - the council controls any significant residual interest in the property at the end of the term of the arrangement (typically through ownership or beneficial entitlement).
- 37.3. The amounts payable to the PFI operators each year are analysed into five elements:
 - fair value of the services received during the year debited to the relevant service in the Comprehensive Income and Expenditure Statement
 - finance cost an interest charge on the outstanding Balance Sheet liability, debited to Interest Payable and Similar Charges in the Comprehensive Income and Expenditure Statement
 - contingent rent increases in the amount to be paid for the property arising during the contract, debited to Interest Payable and Similar Charges in the Comprehensive Income and Expenditure Statement
 - payment towards liability applied to write down the Balance Sheet liability towards the PFI operator, and

- lifecycle replacement costs debited to the relevant service in the Comprehensive Income and Expenditure Statement.
- 37.4. The council has identified five schemes to be accounted for as PFI or similar contracts:
 - St Michael's is a new build voluntary aided secondary school, which became operational in January 2011. The school has been built and is operated over a 25 year contract by 4 Futures Ltd, the majority shareholder of which is Balfour Beatty Education Ltd
 - St Thomas is a new build voluntary aided secondary school, which became operational in February 2012. The school has been built and is operated over a 25 year contract by 4 Futures Ltd, the majority shareholder of which is Balfour Beatty Education Ltd
 - Sacred Heart Catholic School is a new build voluntary aided secondary school, which became operational in September 2014. The school has been built and is operated over a 25 year contract by 4 Futures Ltd, the majority shareholder of which is Balfour Beatty Education Ltd
 - on 11 February 2008 the council entered into a 25-year PFI contract with Veolia Environmental Services for the collection and disposal of waste in the borough. The £682 million contract will enable the council to deliver government targets for waste minimisation, landfill diversion and recycling. Veolia are to provide high specification facilities to receive transfer and treat waste under the PFI contract for a period of 25 years from the date of completion of a new facility at Old Kent Road, a site the council has leased to the company with effect from 9 September 2008
 - In July 2013 the council entered into the Heat Supply PFI Arrangement, which will involve
 the contractor putting in place piping and associated facilities to deliver heating to council
 residents and related services in order to fulfil the council's mandate of delivering services
 to the public.
- 37.5. The movements in liabilities resulting from PFI (or similar) contracts were as follows:

	St Michael's Catholic College	St Thomas the Apostle College	Sacred Heart Catholic School	Integrated Waste Management Facility	Heating Supply Arrangement	Total
	£000	£000		£000	£000	£000

Total	13	70	81	87	94	157	1,220,745	1,770,559

- 38.1. The council did not offer a voluntary severance scheme to its staff. Where staff left on redundancy the post that they occupied was subject to deletion or reduction; as such the council does not classify individuals' decisions to leave as either voluntary or compulsory redundancy, and there are no differences in payments.
- 38.2. At the balance sheet date, provisions of £0.5 million have been set aside to meet termination benefits costs not yet incurred of reorganisations already in progress at 31 March 2015 (£0.8 million at 31 March 2014).

39. PENSIONS SCHEMES ACCOUNTED FOR AS DEFINED CONTRIBUTION SCHEMES

- 39.1. Teachers employed by the council are members of the Teachers' Pension Scheme, administered by the Department for Education. The Scheme provides teachers with specified benefits upon their retirement, and the council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries. As part of its public health responsibilities the council employs staff who are members of the NHS Pension Scheme.
- 39.2. The schemes are technically defined benefit schemes. However, both schemes are unfunded and use notional funds as the basis for calculating the employers' contribution rate paid by local authorities. The council is not able to identify its share of underlying financial position and performance of the schemes with sufficient reliability for accounting purposes. For the purposes of the council's Statement of Accounts, they are therefore accounted for on the same basis as a defined contribution scheme.
- 39.3. In 2014/15, the council paid £7.91 million to Teachers' Pensions in respect of teachers' retirement benefits, representing 14.1% of pensionable pay, (£8.16 million and 14.1% respectively in 2013/14). It also paid £0.277 million to the NHS Pension Scheme representing 14% of pensionable pay (£0.498 million 2013/14, representing 14% of pensionable pay). There were no contributions remaining payable at the year end.
- 39.4. The council is responsible for the costs of any additional benefits awarded upon early retirement outside the terms of the teachers' scheme. These costs are accounted for on a defined benefit basis and detailed in Note 40 below.

40. DEFINED BENEFIT PENSION SCHEMES

Participation in the Local Authority Pension Scheme

- 40.1. As part of the terms and conditions of employment of its officers and other employees, the council offers retirement benefits. Although these benefits will not actually be payable until employees retire, the council has a commitment to make the payments that need to be disclosed at the time that employees earn their future entitlement.
- 40.2. The council participates in two pension fund schemes, the London Borough of Southwark Pension Fund (council) and the London Pension Fund Authority Pension Fund (LPFA). Both are funded schemes, meaning that the council and employees pay contributions into a fund, calculated at a level intended to balance the pension fund's liabilities with investment assets.

Transactions relating to post employment benefits

40.3. The council recognises the cost of retirement benefits in the Comprehensive Income and Expenditure Statement (CIES) when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the council is required to make against council tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the CIES and the General Fund balance via the Movement in Reserves Statement during the year:

Cost of services:	Council £000	LPFA £000	2014/15 Total £000	Council £000	LPFA £000	2013/14 Total £000

Basis for estimating assets and liabilities

- 40.7. Liabilities for the council and LPFA schemes have been assessed by AON Hewitt Limited and Barnett Waddingham respectively. Both have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in the future years dependent on assumptions about mortality rates, salary levels, etc. The estimates are based on data relating to the latest full valuations as at 31 March 2013 and rolled forward.
- 40.8. The principal assumptions used by the actuaries have been:

		Council		LPFA
	2014/15	2013/14	2014/15	2013/14
Mortality assumptions				
Longevity at 65 for current pensioners				
- Men (years)	21.9	21.8	20.9	20.8
- Women (years)	26.4	26.3	24.2	24.1
Longevity at 65 for future pensioners				
- Men (years)	24.0	23.9	23.3	23.2
- Women (years)	28.7	28.6	26.5	26.4
Principal financial assumptions				
Rate of inflation - RPI	2.9%	3.4%	3.0%	3.4%
Rate of inflation - CPI	1.8%	2.4%	2.2%	2.6%
Rate of increase in salaries	3.3%	3.9%	4.0%	4.4%
Rate of increase in pensions	1.8%	2.4%	2.2%	2.6%
Rate of pension accounts revaluation	1.8%	na		2.070
Rate for discounting scheme liabilities	3.2%	4.3%	3.0%	4.2%

40.9. The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all other assumptions remain constant

Assumption	Impact of incr	ease		Impact of dec	rease	
	Council	LPFA	Total	Council	LPFA	Total
	£000	£000	£000	£000	£000	£000

Rate for discounting scheme liabilities	35,000	359	35,359	37,400	373	37,773
(+/- 0.1%)						

Impact on the council's cash flows

- 40.10. The objective of the schemes is to achieve a funding level of 100%, with funding levels monitored on an annual basis. The next triennial valuation is due to be completed on 31 March 2016. The liabilities show the underlying commitments that the council has in the long run to pay post employment (retirement) benefits. The total liability of £1,747 million (£1,552 million 2013/14) has a substantial impact on the net worth of the council as recorded in the Balance Sheet, resulting in a net liability of £491 million (£487 million 2013/14). However statutory arrangements for funding the deficit mean that the council remains healthy. The deficit on both schemes will be made good by increased contributions over the remaining working life of employees as assessed by the actuaries.
- 40.11. As members of the Local Government Pension Scheme, both the council and LPFA schemes have taken account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Governments Pension Scheme may not provide benefits in relation to service after 31 March 2014. The Act provides for scheme regulations to be made within common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants. The anticipated service cost in 2014/15 is £36.2 million for the council scheme and £0.366 million for the LPFA scheme. The weighted average duration of the defined benefit obligation for the council scheme members is 18.3 years (18.3 years 2013/14) and 14 years for LPFA scheme members (14 years 2013/14).

41. OTHER LONG TERM LIABILITIES

41.1. Other long term liabilities represent the council's obligations to pay for presumed capital benefits received under long term contracts. The liabilities are:

	31/03/2015 £000	31/03/2014 £000
Payments due under finance leases Payments due under PFI schemes and similar arrangements:	222	561
Heat Supply Arrangement	4,674	3,811
St Michael's Catholic College	14,850	14,967
St Thomas the Apostle College	19,437	19,415
Sacred Heart Catholic School	18,636	-
Integrated Waste Management Facility	51,496	53,951
Deferred rental due on leasing of building assets	1,137	1,092
Total	110,452	93,797

41.2. Details of payments due under finance leases and PFI schemes and similar arrangements are provided in notes 36 and 37 respectively.

42. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

- 42.1. The council holds financial instruments in the normal course of its operations and therefore has exposure to liquidity, credit and market risks. The council has in place arrangements to control and report key financial instrument risks at both council and operational levels, as required by statutory regulations and guidelines, as well as the Treasury Management in the Public Services Code of Practice and the Prudential Code of Capital Finance in Local Authorities, both produced by the Chartered Institute of Public Finance and Accountancy.
- 42.2. Investments are managed prudentially, with capital preservation and liquidity being high priorities. Cash and investments are used to finance the council's working capital. Borrowing pays for capital spend.
- 42.3. Trade receivables arise from the provision of goods and services and the carrying out of the council's functions.
- 42.4. The council does not trade in financial instruments or hold derivatives.

Liquidity risk

- 42.5. The council has access to long term loan facilities from the Public Works Loans Board to fund maturing debt and capital financing requirements. Investment may also be realised for working capital requirements.
- 42.6. The maturity profiles of council debt and investments at 31 March 2015 can be found in the Financial Instruments note on page 38.

Credit risk

42.7. The council draws on credit ratings published by major rating agencies in assessing counterparties in which investments may be placed. A high priority is placed on capital preservation and is reflected in the high rating demanded from investment counterparties. Credit risk is further reduced through diversification across counterparties, which include the UK government and supranational entities. The maximum exposure to credit risk is represented by the sums held in investments. The maturity and ratings of investments held at 31 March 2015 is set out below:

Period remaining	Α	AA	AAA	Total
Up to 1 Year	60%	25%	9%	94%
1-2 Years	0%	0%	2%	2%
2-5Years	0%	4%	0%	4%
Total	60%	29%	11%	100%

42.8. In the normal course of carrying out its operations, the council is exposed to the potential risk of default from individuals, firms and organisations that it deals with. Credit is assessed prior to being granted in commercial transactions, for example commercial rents. Debts arising are actively managed and collection targets are used to raise receipts. Debt outstanding is pursued and in appropriate cases further credit is suspended. A charge may be placed on property for debt, but the bulk of the exposure is unsecured and subject to credit risk and notably concentrated within the council's geographical boundary.

Market risk

- 42.9. The council has exposure to interest rate movements in its borrowing and investments.
- 42.10. All council borrowing outstanding at 31 March 2015 are from the Public Works Loans Board PWLB). The debt is at fixed rates, with an average maturity of 21 years and a modified duration of 14 years. The maturity profile of the debt is set out in the Financial Instruments note on page 38 and the council may draw loans from the PWLB if needed. A 1% rise in discount rates at Balance Sheet date would lower the fair value by £90 million and a 1% fall would raise it by £114 million. As the debt is held at amortised cost there would be no impact on the comprehensive income and expenditure statement from such changes, unless the debt was extinguished. Legislation would then require a charge to be taken to the Financial Instruments Adjustment Account.
- 42.11. The overall average life of council investments is 0.5 years and the modified duration is 0.4. Within that, the available-for-sale investments have an average life of 0.6 years and a modified duration of 0.6. A 1% change in discount rates on available-for-sale investments at Balance Sheet date would change the fair value by £0.6 million and would be reflected in the Balance Sheet in the available-for-sale reserve. There would be no impact on the comprehensive income and expenditure statement, unless the investments were realised. A 1% change in discount rates on loans and receivable investments at the Balance Sheet date would change the fair value by £0.1 million, but as these are held at amortised cost there would be is no impact on the comprehensive income and expenditure statement unless the investments were extinguished.
- 42.12. Investments are held in short term deposits or certificate of deposits with major banks and building societies. Money is also held in money market funds, treasury bills and bonds, and investments of more than one year are usually held in UK government gilts or supranational banks. Investments are managed by two fund managers and an in-house operation.

Foreign exchange risk

42.13. The council has no financial assets or liabilities denominated in foreign currencies, and therefore has no exposure to losses arising from movements in exchange rates.

HOUSING REVENUE ACCOUNT INCOME AND EXPENDITURE STATEMENT

The Housing Revenue Account is a record of expenditure on, and income from, the provision of local authority housing, and the form and content of the Account is prescribed by statute. The Housing Revenue Account is "ringfenced" and must be self-supporting. Contributions both to and from the Housing Revenue Account (e.g. from the General Fund) are limited to special circumstances.

	Note	2014/15 £000	2013/14 £000
Income Dwelling rents Non dwelling rents Charges for services and facilities Contributions towards expenditure Total income		(195,594) (11,373) (78,289) (4,975)	(195,252) (11,651) (68,096) (5,507) (280,506)

MOVEMENT ON THE HOUSING REVENUE ACCOUNT STATEMENT

This is a reconciliation statement summarising the differences between the outturn on the HRA Income and Expenditure Statement and the HRA Balance.

The Income and Expenditure Account shows the council's actual financial performance for the year, measured in terms of the resources generated and used in the last twelve months. However, a number of items have to be included or removed from the HRA Income and Expenditure Statement to comply with the statutory requirements of accounting for the HRA.

Balance carried forward	6	(25,945)	(23,468)
HRA Balance brought forward		(23,468)	(31,755)
(Increase)/decrease in the HRA Balance		(2,477)	8,287
Net additional amounts required by statute	5	66,877	150,250
(Surplus)/deficit for the year on HRA services		(69,354)	(141,963)
	Note	2014/15 £000	2013/14 £000

NOTES TO THE HOUSING REVENUE ACCOUNT STATEMENTS

1. THE HOUSING REVENUE ACCOUNT (HRA)

1.1. The Housing Revenue Account is a record of expenditure on, and income from, the provision of local authority housing, and the form and content of the Account is prescribed by statute. The Housing Revenue Account is "ringfenced" and must be self-supporting. Contributions both to and from the Housing Revenue Account (e.g. from the General Fund) are limited to special circumstances.

2. ANALYSIS OF HOUSING STOCK BY TYPE OF DWELLING

Type of dwelling	pe of dwelling Number of bedrooms		of dwelling Number of bed			To	tal
		1	2	3+	Other	31/3/15	31/3/14
Houses and bungalows	31/03/15	406	734	2,878	-	4,018	
······································	31/03/14	407	743	2,883	-	,	4,033
Low rise flats	31/03/15	2,893	631	360	-	3,884	
	31/03/14	2,925	629	365	-	,	3,919
Medium rise flats	31/03/15	6,768	7,234	6,195	_	20,197	
	31/03/14	6,831	7,299	6,263	-	,	20,393
High rise flats	31/03/15	2,979	4,785	1,821	-	9,585	
	31/03/14	3,017	4,825	1,840	-		9,682
Non permanent	31/03/15	-	-	-	3	3	
·	31/03/14	-	-	-	5		5
Multi occupied	31/03/15	-	-	-	235	235	
·	31/03/14	-	-	-	217		217
TOTALS	31/03/14	13,046	13,384	11,254	238	37,922	
	31/03/13	13,180	13,496	11,351	222		38,249

- 2.1. In addition to the numbers shown in the table above, as at 31 March 2015 there were also 613 void properties (814 at 31 March 2014, including demolished properties). These are mostly decanted properties within the major redevelopment projects currently underway; but whilst having been made secure, they have not yet been demolished.
- 2.2. The vacant possession value of dwellings as at 1 April 2014 was £9.177 billion (£7.540 billion as at 1 April 2013). The difference between the vacant possession value and Balance Sheet value of dwellings within the HRA shows the economic cost to the government of providing council housing at less than market rents.

3. DEPRECIATION AND REVALUATION CHARGES

	2014/15 £000	2013/14 £000
Dwellings depreciation Other property depreciation Revaluation losses on non-current assets	55,915 2,633 26,314	50,657 1,672 (88,964)
Total	84,862	(36,635)

- 3.1. Revaluation charges arise from capital expenditure carried out on dwellings which has not changed the value of those dwellings, or from reductions in the value of assets in excess of any carrying values held in the Revaluation Reserve.
- 3.2. All depreciation and revaluation charges in respect of dwellings are reversed out of the HRA to the Capital Adjustment Account, the values consequently having no net effect on rents or other HRA income. Revaluation charges related to other HRA land and buildings are not reversed out and so consequently there is the potential for these values to have an effect on rents or other HRA income.

4. REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFCUS)

- 4.1. REFCUS is a class of expenditure that may meet statutory definitions of capital expenditure, but is of a nature that is not consistent with the accounting standards definitions of additions to Property Plant and Equipment. Examples include expenditure incurred on assets that are not owned by the council, often referred to as a capital grant. Expenditure is charged to the Income and Expenditure Account as it arises, but is then charged to the Capital Adjustment Account to be financed from capital resources. For the HRA this expenditure would include cash incentive payments (grants to tenants as an incentive to vacate their properties and purchase private accommodation), and statutory home loss payments where the council necessarily relocates tenants to other accommodation.
- 4.2. In 2014/15 £7.125 million was incurred in the HRA as REFCUS (£10.257 million in 2013/14).

5. MOVEMENT ON THE HOUSING REVENUE ACCOUNT BALANCE, NET ADDITIONAL AMOUNTS REQUIRED BY STATUTE

5.1. The following table shows items included in the HRA Income and Expenditure Account but which are excluded from the movement on HRA Balance for the year:

	2014/15 £000	2013/14 £000
Difference between interest payable and similar charges including amortisation of premiums and discounts determined in accordance with the Code and those determined in accordance with statute	7,213	(6,296)
Difference between any other item of income and expenditure determined in accordance with the Code and determined in accordance with statutory HRA requirements	(79)	26
Gain or loss on sale of HRA non current assets	17,138	16,575
HRA share of contributions to or from the Pensions Reserve	(3,058)	(4,566)
Capital expenditure funded by the HRA	18,672	18,227
Transfer to/from the Major Repairs Reserve	47,842	46,062
Transfer to/from the Capital Adjustment Account	(20,851)	80,222
Net additional amount required by statute to be		
charged to the HRA	66,877	150,250

6. HRA BALANCE

6.1. HRA reserves at 31 March 2015 are £25.9 million and are allocated as follows:

Total	25.9	23.5
Other earmarked reserves	3.5	4.0
Improvement Reserve Financial Risk Reserve	9.4	9.8
Modernisation, Service and Operational	3.0	4.1
Regeneration and Development Reserve	10.0	5.6
	2014/15 £m	2013/14 £m

- 6.2. The Regeneration and Development reserve of £10.0 million relates in part to the redevelopment of the Aylesbury Estate (£5.6 million) and also to the direct delivery of new council homes (£4.4 million).
- 6.3. The Modernisation, Service and Operational Improvement reserve of £3.0 million comprises £0.6 million for IT modernisation, including general infrastructure, and £2.4 million for investment in heating systems.
- 6.4. The Financial Risk reserve, £9.4 million, includes £5.1 million Contingency reserve, broadly representing 1.3% of gross HRA revenue spend and Housing Investment Programme spend. The Reserve also provides £2.0 million to self-insure against the risks of subsidence and significant fire damage to the council's housing stock, £2.2 million Heating Account Reserve, which represents the cumulative balance available to mitigate energy cost pressures and minimise future increases in heating charges, and £0.1 million for estate parking.
- 6.5. The other earmarked reserves, £3.5 million, comprise a range of specific resources for the tenants' fund, leaseholders' fund, Browning EMB, etc, totalling £1.0 million. The balance also includes one-off (non-recurring) schemes and projects aimed at improving customer service and delivery across the housing service, and to meet specific cost pressures outside the existing revenue budget.

7. MAJOR REPAIRS RESERVE

	2014/15	2013/14
	£000	£000
Balance 1 April	10,269	41,164
Transfers from the Capital Adjustment Account	58,548	52,329
Transfer to the HRA	(10,706)	(6,267)
Financing of capital expenditure	(18,570)	(64,276)
Provision to reduce the capital financing requirement	-	(12,681)
Balance 31 March	39,541	10,269

8. CAPITAL EXPENDITURE AND FINANCING

Canital Investment	2014/15 £000	2013/14 £000
Capital Investment Non current assets	161,472	111,816
REFCUS	7,125	10,257
Total	168,597	122,073
Funding Source: Revenue contributions Capital receipts from the sales of assets Grants and other contributions Major Repairs Reserve PFI	18,672 75,315 56,040 18,570	18,227 1,462 33,174 64,276 4,934
Total	168,597	122,073

9. CAPITAL RECEIPTS FROM DISPOSAL OF LAND, HOUSES AND OTHER PROPERTY WITHIN THE HOUSING REVENUE ACCOUNT

	2014/15 £000	2013/14 £000
Council dwellings		
Right to Buy	(30,864)	(24,191)
Discounts repaid	(231)	(380)
Non Right to Buy	(4,512)	(15,058)
Other receipts Land sales Mortgages	(59,946) (24)	(10,546) (27)
	(95,577)	(50,202)
Less: Pooled (paid to central Government)	3,982	3,758
Total	(91,595)	(46,444)

10. HOUSING TENANTS ACCOUNTS

	2014/15 £000	2013/14 £000
Gross arrears as at 1 April Prior year payments Arrears as at 1 April	17,827 (7,140) 10,687	17,630 (6,401) 11,229
Charges due in the year Rent rebates Write-offs Adjustments Cash collected	236,491 (110,667) (1,212) (5,292) (119,775)	238,294 (114,608) (2,705) (5,135) (116,388)
Net arrears as at 31 March	10,232	10,687
Payments in advance	6,857	7,140
Gross arrears as at 31 March	17,089	17,827

^{10.1.} The arrears position comprises all dwelling stock and non-residential properties, hostels and Browning EMB. It excludes temporary accommodation, i.e. bed & breakfast, private sector leasing, and travellers' sites, as these are General Fund services.

11. IMPAIRMENT OF DEBTORS

Total	13,783	12,364
Penalty Charge Notices and parking warrants	926	269
Commercial rents	657	551
Court costs	764	772
Income from hostels	691	620
Rents	10,745	10,152
	£000	£000
	2014/15	2013/14

11.1. From 2013/14 the HRA became responsible for parking income derived through Penalty Charge Notices (the level of which is set nationally), and parking warrants. This income is ring-fenced to fund expenditure directly related to the provision of appropriate services.

12. PENSIONS COSTS

- 12.1. The HRA is charged with the costs of pensions for its employees in accordance with IAS 19.

 The costs are then reversed out of the HRA to the Pensions Reserve. The values have no net effect on rents or other HRA income.
- 12.2. The apportionment of charges to the HRA under IAS 19 is based on the ratio of employer payroll costs incurred by the council for staff charged to the HRA against those employed for the council as a whole. This apportionment is also applied to actuarially assessed items such as pensions interest cost, the expected return on pension assets, and actuarial gains and losses.

Movement on the Pensions Reserve	867	(23,554)
Less Pensions costs attributable to the HRA	(4,203)	(4,153)
Total IAS 19 charges	5,070	(19,401)
Current service cost Interest on pension scheme liabilities Actuarial (gains)/losses	4,367 2,895 (2,192)	5,040 3,679 (28,120)
	2014/15 £000	2013/14 £000

COLLECTION FUND

The Collection Fund statement is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the government of council tax and non-domestic rates.

NOTES TO THE COLLECTION FUND

1. COUNCIL TAX

- 1.1. Council tax is a property-based tax, which is assessed on the value of residential property. For this purpose, the Valuation Office Agency has set residential properties into eight valuation bands, of A to H, using estimated market value at 1 April 1991. The council tax charges are calculated by estimating the amount of income required from the Collection Fund by the council and preceptors for the forthcoming year, and dividing this by the council tax base, which is the total number of properties liable to tax, expressed as a band D equivalent.
- 1.2. In 2014/15 the estimated income required from the Collection Fund for all preceptors was £102.145 million (£98.938 million in 2013/14). The amount of council tax for a band D property (£1,211.14 in 2014/15 and £1,215.14 in 2013/14) is multiplied by the "ratio" specified for the particular band to give the council tax due from properties in other bands. The table below shows how the council tax base was set and the resulting band D council tax.

			- ··		
Band	Estimated number of properties		Ratio	Equivalent numb	
	after effect of discounts	3		Band D propertie	es
	2014/15	2013/14		2014/15	2013/14

Band D	Council Tax			£1,211.14	£1,215.14

2. NATIONAL NON DOMESTIC RATES

- 2.1. National Non-Domestic Rates (NNDR) or business rates are collected from local businesses by the council. Previously, the rates collected were paid into a national pool administered by the Government, which the Government then redistributed back to local authorities on the basis of a fixed amount per head of the population. However, since 1 April 2013 the Business Rates Retention scheme was introduced, and instead of redistribution of business rates from the national pool the council keeps a proportion (LBS 30%) of the business rates revenue, and the remaining proportion is paid to the government (CLG 50%) and the Greater London Authority (GLA 20%).
- 2.2. The business rates are based on local rateable values and a multiplier set by the Government. The non-domestic rating multiplier set by the Government for 2014/15 was 48.2p and 47.1p for small business (47.1p and 46.2p respectively for 2013/14). Local businesses pay NNDR calculated by multiplying their rateable value by these rates and subject to certain reliefs and deductions.
- 2.3. The total rateable value in the council at 31 March 2015 was £526.194 million (£512.780 million at 31 March 2014).

3. BUSINESS RATE SUPPLEMENT

- 3.1. The Business Rate Supplements (BRS) or Crossrail BRS are collected from local businesses by the council, on behalf of the Greater London Authority.
- 3.2. The BRS is based on local rateable values, as with the general business rate (NNDR), and was introduced by the Mayor of London in April 2010. The levy set for 2014/15 was 2p on non-domestic properties with a rateable value of over £55,000 in London, which has been the same since its inception in April 2010.

4. CONTRIBUTION TO/FROM PRECEPTORS OF THE PREVIOUS YEAR'S ESTIMATED COLLECTION FUND SURPLUS/DEFICIT

4.1 As a billing authority, the council is required to make an estimate of the surplus or deficit on the Collection Fund for the year, by the 15 January each year. The estimated surplus or deficit is used in setting the Council Tax for the following year, by reducing the Council Tax if there is a surplus or increasing the Council Tax if there is a deficit. In January 2014, the council estimated an accumulated collection fund surplus balance of £1,789,078 for 2013/14 as follows:

	Council Tax	Business Rates	Total
Surplus as at 31 March 2013 Less estimated deficit/(surplus) for 2013/14	£ (1,774,521) 22,178	£ (36,735)	£ (1,774,521) (14,557)
Estimated surplus as at 31 March 2014	(1,752,343)	(36,735)	(1,789,078)

4.2 The estimated surplus was apportioned between the council and the Greater London Authority based on their respective demands and precepts on the Collection Fund (74.8% and 25.2%) as follows:

Authority	Council Tax		uncil Tax Business Rate		Total
	%	£	%	£	£
Southwark Council	75.1	(1,316,009)	30	(11,021)	(1,327,030)
Greater London Authority	24.9	(436,334)	20	(7,346)	(443,680)
Central Government		,	50	(18,368)	(18,368)
Estimated surplus for 2013/14,	_				
redistributed in 2014/15	_	(1,752,343)		(36,735)	(1,789,078)

5. PROVISION FOR BUSINESS RATES APPEALS

5.1 As stated under note 2.1 above, since 1 April 2013 the Business Rates Retention scheme was introduced, which required a number of changes to the accounting and reporting treatment of the NNDR income and expenditure, particularly a requirement to make a provision for the NNDR appeals. Previously, the net collection fund balance for the NNDR has always been nil because the expenditure was equal to the income collected, i.e. the NNDR collected was paid over to the government in full as the council was acting as an agent for the CLG. This agency approach meant the council was not required to account for the NNDR "appeals" in the past. However, since 2013/14 the appeals had to be in the collection fund statement according to proper accounting practice and this included a provision for backlog of appeals for pre 1 April 2013.

ACCOUNTING POLICIES

1. ACCOUNTING POLICIES

General Principles

1.1. The Statement of Accounts summarises the council's transactions for the 2014/15 financial year and its position at the year end of 31 March 2015. The council is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2011, which those Regulations require to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2014/15 and the Service Reporting Code of Practice for Local Authorities (SeRCOP), supported by International Financial Reporting Standards (IFRS). The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

Accruals of Income and Expenditure

- 1.2. Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:
 - Revenue from the sale of goods is recognised when the council transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the council
 - Revenue from the provision of services is recognised when the council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the council
 - Revenue from housing rents is recognised in the year the billing amount falls due.
 - Revenue relating to council tax and business rates is measured at the full amount receivable (net of any impairment losses) as it is a non-contractual, non-exchange transaction with no difference between the delivery and payment dates. It is recognised in the financial statements when it is probable that the economic benefits associated with the transaction will flow to the authority, and the amount of the revenue can be measured reliably.
 - Supplies are recorded as expenditure when they are consumed where there is a gap between the date supplies are received and their consumption, they are carried as inventories in the Balance Sheet
 - Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made
 - Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract
 - Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- 1.3. Where the amount due is unknown then an estimated amount has been allowed for.
- 1.4. For year end purposes a de minimis of £20,000 applies for accruals of income and expenditure, except for capital expenditure accruals where a de minimis of £50,000 applies.

Cash and Cash Equivalents

1.5. Cash and cash equivalents are represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the council's cash management.

Exceptional Items

1.6. When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the Notes to the accounts, depending on how significant the items are to an understanding of the council's financial performance.

Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

- 1.7. Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e., in the current and future years affected by the change and do not give rise to a prior period adjustment.
- 1.8. Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.
- 1.9. Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

Carbon Reduction Commitment

1.10. The council is required to participate in the Carbon Reduction Commitment Energy Efficiency Scheme. This scheme is currently in the initial year of its second phase, which ends on 31 March 2019. The council is required to purchase allowances, either prospectively or retrospectively, and surrender them on the basis of emissions, ie carbon dioxide produced as energy is used. As carbon dioxide is emitted (ie as energy is used), a liability and an expense are recognised. The liability will be discharged by surrendering allowances. The liability is measured at the best estimate of the expenditure required to meet the obligation, normally at the current market price of the number of allowances required to meet the liability at the reporting date. The cost to the council is recognised and reported in the costs of the council's services and is apportioned to services on the basis of energy consumption.

Charges to Revenue for Non-Current Assets

- 1.11. Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:
 - depreciation attributable to the assets used by the relevant service
 - revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be offset
 - amortisation of intangible assets attributable to the service.
- 1.12. The council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisations. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the council in accordance with statutory guidance (England and Wales), and set out in the treasury strategy report approved annually by council Assembly. Depreciation, revaluation and impairment losses and amortisations are therefore replaced by the contribution in the General Fund Balance with the Minimum Revenue Provision by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Employee Benefits - Benefits Payable During Employment

1.13. Short-term employee benefits are those due to be settled within 12 months of the year end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the council. An accrual is made for the cost of holiday entitlements (or any form of leave e.g. time off in lieu) earned by employees but not taken before the year end which employees can carry forward into the next financial year. Such entitlements are expected to be taken within three months of the end of the financial year, and the accrual is made at the wage and salary rates applicable in the accounting year. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Employee Benefits - Termination benefits

- 1.14. Termination benefits are amounts payable as a result of a decision by the council to terminate an officer's employment before the normal retirement date or an officer's decision to accept redundancy and are charged on an accruals basis to the Non Distributed Costs line in the Comprehensive Income and Expenditure Statement when the council is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy.
- 1.15. Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end.

Employment Benefits - The Local Government Pension Scheme

- 1.16. The Local Government Scheme is accounted for as a defined benefits scheme. The council contributes to two pension funds its own, the London Borough of Southwark Pension Fund, and that of the London Pension Fund Authority Pension Fund.
- 1.17. The council's shares of its liabilities in both funds are included in the Balance Sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees. Liabilities are discounted to their value at current prices, the disclosures on Note 40 to the Accounts set out the discount rates and assumptions applied by each fund.
- 1.18. The assets of funds attributable to the council are included in the Balance Sheet at their fair value:
 - quoted securities current bid price
 - unquoted securities professional estimate
 - unitised securities current bid price
 - property market value.
- 1.19. The change in the net pensions liability is analysed into seven components:
 - current service cost the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked
 - past service cost the increase in liabilities arising from current year decisions whose
 effect relates to years of service earned in earlier years debited to the Surplus or Deficit
 on the Provision of Services in the Comprehensive Income and Expenditure Statement as
 part of Non Distributed Costs
 - interest cost the expected increase in the present value of liabilities during the year as
 they move one year closer to being paid debited to the Financing and Investment
 Income and Expenditure line in the Comprehensive Income and Expenditure Statement

- expected return on assets the annual investment return on the fund assets attributable
 to the council, based on an average of the expected long term return credited to the
 Financing and Investment Income and Expenditure line in the Comprehensive Income
 and Expenditure Statement
- gains or losses on settlements and curtailments the result of actions to relieve the council of liabilities or events that reduce the expected future service or accrual of benefits of employees – debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs
- actuarial gains and losses changes in the net pensions liability that arise because
 events have not coincided with assumptions made at the last actuarial valuation or
 because the actuaries have updated their assumptions debited to the Pensions
 Reserve
- contributions paid to the pension fund cash paid as employer's contributions to the pension fund in settlement of liabilities, not accounted for as an expense.
- 1.20. In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.
- 1.21. The council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme

Employment Benefits - The Teachers' Pension Scheme

- 1.22. Teachers employed by the council are eligible to be members of the Teachers' Pension Scheme, administered by the Department for Education. The Scheme provides teachers with specified benefits upon their retirement, and the council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.
- 1.23. The Scheme is technically a defined benefit scheme. However, the Scheme is unfunded and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. The council is not able to identify its share of underlying financial position and performance of the Scheme with sufficient reliability for accounting purposes. For the purposes of the council's statement of accounts, it is therefore accounted for on the same basis as a defined contribution scheme.
- 1.24. On this basis, no liability for the future payments of benefit is recognised in the Balance Sheet. The Children's and Educational Services line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to Teachers' Pensions in the year.

Events After the Balance Sheet Date

- 1.25. Events after the balance sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the statement of accounts is authorised for issue. Two types of events can be identified:
 - those that provide evidence of conditions that existed at the end of the reporting period the Statement of Accounts is adjusted to reflect such events
 - those that are indicative of conditions that arose after the reporting period the Statement
 of Accounts is not adjusted to reflect such events, but where a category of events would
 have a material effect, disclosure is made in the notes of the nature of the events and
 their estimated financial effect.
- 1.26. Events taking place after the date of authorisation for issue are not reflected in the statement of accounts.

Financial Instruments

- 1.27. Financial liabilities are recognised on the Balance Sheet when the council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.
- 1.28. For most of the borrowings that the council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.
- 1.29. Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase or settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.
- 1.30. Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund and the HRA Balance to be spread over future years. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.
- 1.31. Financial assets are classified into two types:
 - loans and receivables assets that have fixed or determinable payments but are not quoted in an active market
 - available-for-sale assets assets that have a quoted market price and/or do not have fixed or determinable payments.
- 1.32. Loans and receivables are recognised on the Balance Sheet when the council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the council has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.
- 1.33. The council has made a number of loans or agreed deferred payment arrangements with debtors at less than market rates (soft loans). When soft loans are made, a loss is recorded in the Comprehensive Income and Expenditure Statement (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest is credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement at a marginally higher effective rate of interest than the rate receivable from the debtor, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Some soft loans have been grouped into portfolios and interest and amortised costs has been modelled based on portfolio characteristics. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year the reconciliation of amounts debited and credited to the Comprehensive Income and Expenditure Statement to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

- 1.34. Available-for-sale assets are recognised on the Balance Sheet when the council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (e.g. dividends) is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the council.
- 1.35. Financial assets are maintained in the Balance Sheet at fair value. Values are based on the following principles:
 - instruments with quoted market prices the market price
 - other instruments with fixed and determinable payments discounted cash flow analysis.
- 1.36. Changes in fair value are balanced by an entry in the Available-for-Sale Reserve and the gain/loss is recognised in the Surplus or Deficit on Revaluation of Available-for-Sale Financial Assets. The exception is where impairment losses have been incurred these are debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any net gain or loss for the asset accumulated in the Available-for-Sale Reserve.
- 1.37. Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made (fixed or determinable payments) or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise, the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).
- 1.38. Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any accumulated gains or losses previously recognised in the Available-for-Sale Reserve.
- 1.39. Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

Government Grants and Contributions

- 1.40. Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the council when there is reasonable assurance that:
 - the council will comply with the conditions attached to the payments, and
 - the grants or contributions will be received.
- 1.41. Amounts recognised as due to the council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.
- 1.42. Moneys advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non ring fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

- 1.43. Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.
- 1.44. A Business Improvement District (BID) scheme may apply across the whole of the council, or to specific areas of the council. Schemes are funded by a BID levy paid by non-domestic ratepayers. The council acts as principal under these schemes, and accounts for income received and expenditure incurred (including contributions to the BID project) within the relevant services within the Comprehensive Income and Expenditure Statement.

Inventories and long term contracts

- 1.45. Stocks and stores are recorded and charged in the Accounts at average price.
- 1.46. Long term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

Investment property

- 1.47. Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.
- 1.48. Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's-length. Properties are not depreciated but are revalued annually according to market conditions at the year end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.
- 1.49. Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

Leases

- 1.50. Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.
- 1.51. Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.
- 1.52. Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The council as Lessee - Finance leases

1.53. Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

- 1.54. Lease payments are apportioned between:
 - a charge for the acquisition of the interest in the property, plant or equipment applied to write down the lease liability, and
 - a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).
- 1.55. Property, plant and equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the council at the end of the lease period).
- 1.56. The council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

The council as Lessee - Operating Leases

1.57. Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

The council as lessor – finance leases

- 1.58. Where the council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether property, plant and equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the council's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long term debtor) asset in the Balance Sheet.
- 1.59. Lease rentals receivable are apportioned between:
 - a charge for the acquisition of the interest in the property applied to write down the lease debtor (together with any premiums received), and
 - finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).
- 1.60. The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.
- 1.61. The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

The council as lessor – operating leases

1.62. Where the council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g., there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

Overheads and Support Services

- 1.63. The costs of overheads and support services are charged to those services that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice for Local Authorities (SeRCOP). The total absorption costing principle is used the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:
 - Corporate and Democratic Core costs relating to the council's status as a multifunctional, democratic organisation
 - Non Distributed Costs the cost of discretionary benefits awarded to employees retiring early and impairment losses chargeable on Assets Held for Sale.
- 1.64. These two cost categories are defined in SeRCOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of the surplus or deficit on continuing operations.

Property, plant and equipment

1.65. Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as property, plant and equipment.

Property, plant and equipment - Recognition

- 1.66. Expenditure on the acquisition, creation or enhancement of property, plant and equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e., repairs and maintenance) is charged as an expense when it is incurred.
- 1.67. The council has no de minimis for recognising capital expenditure charged to specific resources only available for capital purposes (borrowing, proceeds from the sales of assets, the receipt of specified grants). If the amount of expenditure on an individual asset within Other Land and Buildings is above £500,000, details of the works are provided to the Valuer with a request to revalue the asset.

Property, plant and equipment - Measurement

- 1.68. Assets are initially measured at cost, comprising:
 - the purchase price
 - any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management
- 1.69. The council does not capitalise borrowing costs incurred whilst assets are under construction. The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the council.

- 1.70. Assets are then carried in the Balance Sheet using the following measurement bases:
 - infrastructure, community assets and assets under construction depreciated historical cost
 - dwellings fair value, determined using the basis of existing use value for social housing (EUV-SH)
 - all other assets fair value, determined as the amount that would be paid for the asset in its existing use (existing use value EUV).
- 1.71. Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value. Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value. Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year end:
 - HRA Dwellings are revalued on an annual basis using the Beacon method
 - All other fair value assets are valued at least once every 5 years as part of a rolling cycle
 - Individual assets or classes of assets may be revalued outside the 5 year cycle, for reasons of significant capital expenditure incurred, physical impairment, or material changes in the value of assets in a sector.
- 1.72. The effective date of annual revaluations and of the rolling cycle of revaluations is 1 April of the relevant accounting period. The effective date of valuations arising from capital expenditure, physical impairment, or material changes in the value of assets in a sector, is 31 March of the relevant accounting period.
- 1.73. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.
- 1.74. Where decreases in value are identified, they are accounted for as follows:
 - where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
 - where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service lines in the Comprehensive Income and Expenditure Statement.
- 1.75. The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Property, plant and equipment - sites under development

1.76. Where the council is holding land for the purpose of constructing dwellings the land is held in Surplus Assets until the construction work is substantially complete, at which time the Valuer is asked to value the site as a completed development, including the construction costs incurred to date, and the asset is transferred to operational assets. Where construction work is due to complete within 12 months of the balance sheet date the Valuer is asked to value the site on the basis of land value plus the construction costs incurred to date, however the asset is retained in Surplus Assets until such time as the construction work has substantially completed. Where construction work is due to take longer than 12 months at the balance sheet date to complete the Value is asked to value the site on the basis of land value only and the asset is retained in Surplus Assets until such time as the construction work has substantially completed.

Property, plant and equipment - impairment

- 1.77. Impairments to property plant and equipment occur where there is a significant decline in an asset's carrying amount during the period that is specific to the asset (i.e. not as the result of a general revaluation downwards). Such a decline may be caused, for example, by substantial physical damage to the asset or by major change in the asset's use. Assets are assessed at each year end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.
- 1.78. Where impairment losses are identified, they are accounted for as follows:
 - where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
 - where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.
- 1.79. Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Property, plant and equipment - depreciation

- 1.80. Depreciation is provided for on all property, plant and equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).
- 1.81. Depreciation is calculated on the following bases:
 - Council dwellings, 15-40 years
 - · Other operational buildings, 10-60 years
 - Surplus assets, 9-40 years
 - · Vehicles, furniture & IT hardware, 5-8 years
 - Plant, fittings & play equipment, 7-15 years
 - Infrastructure assets, 5 50 years
 - · Community assets, 100 years
 - Intangible assets, 3 years.
- 1.82. Where an item of property has major components whose cost or value is 20% or more of the total cost or value of the non-land element of the property and whose useful economic life differs by 10 years or more from the life of the main asset, the components are depreciated separately. In principle the policy for componentisation applies to all items of PP&E, however typically PP&E items other than property assets are not of a nature that would require the policy to be applied, such that only property assets are considered for componentisation.
- 1.83. Depreciation is not provided for on newly acquired assets or construction or enhancement expenditure in the year of acquisition, construction or enhancement. A full year's depreciation is provided for in the year in which an asset is derecognised.
- 1.84. Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Property, plant and equipment - disposals and non-current assets held for sale

- 1.85. When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any losses previously recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.
- 1.86. If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.
- 1.87. Expected sales under the Right to Buy are not included in Assets Held for Sale, due to the uncertainty in achieving the sales and the number of assets that have subsequently been reclassified back to operational assets.
- 1.88. Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.
- 1.89. When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether property, plant and equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.
- 1.90. Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to Right to Buy disposals (net of statutory deductions and allowances) is payable to the government based on an agreed schedule. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.
- 1.91. The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Private Finance Initiative (PFI) and similar contracts

- 1.92. PFI and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the PFI contractor. As the council is deemed to control the services that are provided under its PFI schemes, and as ownership of the property, plant and equipment will pass to the council at the end of the contracts for no additional charge, the council carries the assets used under the contracts on its Balance Sheet as part of property, plant and equipment.
- 1.93. The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) is balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment. Non current assets recognised on the Balance Sheet are revalued and depreciated in the same way as property, plant and equipment owned by the council

- 1.94. The amounts payable to the PFI operators each year are analysed into five elements:
 - fair value of the services received during the year debited to the relevant service in the Comprehensive Income and Expenditure Statement
 - finance cost an interest charge on the outstanding Balance Sheet liability, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
 - contingent rent increases in the amount to be paid for the property arising during the contract, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
 - payment towards liability applied to write down the Balance Sheet liability towards the PFI operator (the profile of write-downs is calculated using the same principles as for a finance lease)
 - lifecycle replacement costs proportion of the amounts payable is posted to the Balance Sheet as a prepayment and then recognised as additions to property, plant and equipment when the relevant works are eventually carried out.

Provisions, contingent liabilities and contingent assets

- 1.95. Provisions are made where an event has taken place that gives the council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.
- 1.96. Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.
- 1.97. When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.
- 1.98. Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the council settles the obligation.
- 1.99. Landfill allowances, whether allocated by DEFRA or purchased from another Waste Disposal Authority (WDA) are recognised as current assets and are initially measured at fair value. Landfill allowances allocated by DEFRA are accounted for as a government grant.
- 1.100.After initial recognition, allowances are measured at the lower of cost and net realisable value. As landfill is used, a liability and an expense are recognised. The liability is discharged either by surrendering allowances or by payment of a cash penalty to DEFRA (or by a combination). The liability is measured at the best estimate of the expenditure required to meet the obligation, normally the market price of the number of allowances required to meet the liability at the reporting date. However, where some of the obligation will be met by paying a cash penalty to DEFRA, that part of its liability is measured at the cost of the penalty.
- 1.101.A contingent liability arises where an event has taken place that gives the council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably. Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

1.102.A contingent asset arises where an event has taken place that gives the council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the council. Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

Reserves

- 1.103.The council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.
- 1.104.Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits, and do not represent usable resources for the council these reserves are explained in the relevant policies above.

Revenue expenditure funded from capital under statute

1.105. Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset for the council has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

VAT

1.106.VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

Acquired operations

- 1.107.On 1 April 2013, local authorities took over responsibility for public health services. In partnership with Lambeth Council, the council runs a shared public health service, with a single director of public health. The overall goal of the service, which is financed by a ring fenced government grant, is to:
 - Protect and promote health and wellbeing
 - · Minimise risks to health and wellbeing
 - Prevent disease and their complications
 - Reduce health and healthcare inequalities.

NOTES TO THE PENSION FUND ACCOUNTS

1. INTRODUCTION

- 1.1. The Pension Fund is part of the Local Government Pension Scheme (LGPS) and is administered by Southwark Council (the council). The scheme is governed by the Public Services Pensions Act 2013, and administered in accordance with The Local Government Pension Scheme Regulations 2013 (as amended), The Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended) and The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009.
- 1.2. It is a contributory defined benefit scheme that provides benefits for former employees of the council and other admitted organisations. The benefits provided include retirement pensions and widows' pensions, death grants and lump sum payments depending on the circumstances.
- 1.3. Benefits are funded by contributions and investment earnings. Contributions are made by active members of the fund in accordance with the LGPS Regulations 2013 and range from 5.5% to 12.5% of pensionable pay for the financial year ended 31 March 2015. Employee contributions are matched by employers' contributions, which are set in accordance with the triennial actuarial funding valuations, the last being at 31 March 2013. Currently, employer rates range from 7.2% to 27.6% of pensionable pay, plus additional deficit payments where appropriate.
- 1.4. The overall investment strategy is the responsibility of the council. This responsibility is delegated to the strategic director of finance and corporate services, taking account of the advice of the Pensions Advisory Panel. Arrangements are expected to change with the upcoming LGPS Scheme Governance Regulations, which will require the setting up of both Local and National Pension Boards from 1 April 2015. The Pensions Regulator will also have an increased role in monitoring the operation of LGPS bodies.

2. BASIS OF PREPARATION

- 2.1. The Statement of Accounts summarises the fund's transactions for the 2014/15 financial year and its position at year-end as at 31 March 2015. The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2014/15, which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector.
- 2.2. The accounts summarise the transactions of the fund and report on the net assets available to pay pension benefits. The accounts do not take account of obligations to pay pensions and benefits which fall due after the end of the financial year. The actuarial present value of promised retirement benefits, valued on an International Accounting Standard (IAS) 19 basis, is disclosed at Note 40 of the main accounts.

3. MEMBERSHIP OF THE FUND

3.1. Membership of the fund is voluntary and employees are free to choose whether to join the scheme, remain in the scheme or make their own personal arrangements outside of the scheme. At 31 March 2015 the membership of the Fund was as follows:

	2014/15	2013/14
Number of contributors to the Fund	7,210	6,812
Number of contributors and dependants receiving allowances	6,913	6,781
Number of contributors who have deferred their pensions	7,705	7,569

- 3.2. Other organisations participating in the Pension Fund comprise:
 - The following admitted bodies:
 - Southwark Law Centre
 - Fusion
 - Centre for Literacy in Primary Education
 - South London Gallery
 - APCOA
 - HATS (formerly Olympic South)
 - Veolia
 - Camden Society
 - Leather Market
 - Balfour Beatty (Cofely)
 - Browning (TMO)
 - Chequers (2)
 - Mears
 - Brandon Trust
 - Capita
 - Interserve
 - Sherman & Waterman
 - D. Brice & Co Ltd
 - Friedman (1 February 2014 until 31 August 2014)
 - The following scheduled bodies:
 - Academy at Peckham
 - Ark All Saints Academy
 - Bacons College
 - Compass Free School
 - Dulwich Hamlet Junior School Academy
 - Globe Academy
 - Goose Green Academy
 - Harris Academy Bermondsey
 - Harris Girls Academy
 - Harris Boys Academy
 - Harris Primary Academy, Peckham Park
 - Harris Free School , Peckham
 - John Donne Academy
 - Judith Kerr Free School
 - Kingsdale Foundation School
 - Newlands Academy
 - Redriff Primary Academy
 - The Charter School Educational Trust
 - Walworth Academy
 - University Academy Engineering South Bank (from 1 September 2014)
 - Harris East Dulwich (from1 September 2014)
 - The Angel Oak Academy (from 1 February 2015)
 - Southwark Free School (from 1 February 2015)

4. ACTUARIAL POSITION OF THE FUND

Introduction

- 4.1. The Scheme Regulations require that a full actuarial valuation is carried out every third year. The purpose of this is to establish that the London Borough of Southwark Pension Fund (the Fund) is able to meet its liabilities to past and present contributors and to review employer contribution rates. The latest full actuarial investigation into the financial position of the Fund was completed as at 31 March 2013 by Aon Hewitt Limited, in accordance with Regulation 36 of the Local Government Pension Scheme (Administration) Regulations 2008.
- 4.2. The following section on the actuarial position of the fund, paragraphs 4.3 4.10, has been prepared by the actuary for the sole use of the council, and should not be relied upon by any other party. The statements should not be considered without reference to the formal actuarial valuation report which details fully the context and limitations of the actuarial valuation.

Actuarial Position

- 4.3. The valuation as at 31 March 2013 showed that the funding ratio of the Fund had increased since the previous valuation with the market value of the Fund's assets at that date (of £994.7M) covering 83% of the liabilities allowing, in the case of current contributors to the Fund, for future increases in pensionable pay.
- 4.4. The valuation also showed that the aggregate level of contributions required to be paid by participating employers with effect from 1 April 2014 is:
 - 13.3% of pensionable pay. This is the rate calculated as being sufficient, together with contributions paid by members, to meet the liabilities arising in respect of service after the valuation date.
 - Monetary amounts to restore the assets to 100% of the liabilities in respect of service prior to the valuation date over a recovery period of 20 years from 1 April 2014, amounting to £12.4M in 2014/15, and increasing by 3.9% p.a. thereafter.
- 4.5. In practice, each individual employer's position is assessed separately and contributions are set out in Aon Hewitt Limited's report dated 31 March 2014 (the "actuarial valuation report"). In addition to the contributions shown above, payments to cover additional liabilities arising from early retirements and ill-health retirements will be made to the Fund by the employers.
- 4.6. The funding plan adopted in assessing the contributions for each individual employer is in accordance with the Funding Strategy Statement. Different approaches adopted in implementing contribution increases and individual employers' recovery periods are set out in the actuarial valuation report.
- 4.7. The valuation was carried out using the projected unit actuarial method for most employers and the main actuarial assumptions used for assessing the funding target and the contribution rates were as follows:

Rate of inflation – RPI	3.4%
Rate of inflation – CPI	2.4%
Rate of increase in salaries	3.9%
Rate of increase in pensions	2.4%
Rate for discounting scheme liabilities	4.3%

- 4.8. The valuation results summarised above are based on the financial position and market levels at the valuation date, 31 March 2013. As such the results do not make allowance for changes which have occurred subsequent to the valuation date.
- 4.9. The formal actuarial valuation report and the Rates and Adjustments Certificate setting out the employer contribution rates for the period from 1 April 2014 to 31 March 2017 were signed on 31 March 2014. Contribution rates will be reviewed at the next actuarial valuation of the Fund as at 31 March 2016.

Actuarial Present Value of Promised Retirement Benefits

4.10. IAS 26 (retirement benefit plans) requires the 'actuarial present value of promised retirement benefits' to be disclosed in the Pension Fund Accounts using the most recent actuarial valuation. The fund was last valued as at 31 March 2013.

Deficit in the fund as measured for IAS26	(456)	(612)
Fair value of net assets Actuarial present value of promised retirement benefits	995 (1,451)	787 (1,399)
	Value as at 31 March 2013 £m	Value as at 31 March 2010 £m

5. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

Pension fund liability

5.1. The pension fund liability is calculated every three years by the appointed actuary, with annual updates in the intervening years. The methodology used is in line with accepted guidelines and in accordance with IAS 19. Assumptions underpinning the valuations are agreed with the actuary and are summarised in Note 4. This estimate is subject to significant variances based on changes to underlying assumptions.

6. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

6.1. The Statements contain estimated figures that are based on assumptions made by the council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, as balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates. This applies particularly to the estimation of the net liability to pay pensions, which depends upon a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. The council's actuaries are engaged to provide the Fund with expert advice about the assumptions to be applied. The actuarial position is set out in Note 4 and the critical judgements applied are explained in Note 5.

7. EVENTS AFTER THE BALANCE SHEET DATE

7.1. There are no significant post balance sheet events to be disclosed at the time of preparing these statements.

8. CONTRIBUTIONS

8.1. Contributions represent the total amount receivable from employees and employers of the scheme. Contributions to the fund are analysed as follows:

	Employees £000	Employers £000	2014/15 Total £000	Employees £000	Employers £000	2013/14 Total £000
Southwark Council Admitted bodies Scheduled bodies	(11,061) (365) (803)	(37,540) (1,161) (1,747)	(48,601) (1,526) (2,550)	(9,850) (366) (651)	(34,370) (1,299) (1,630)	(44,220) (1,665) (2,281)
Total Contributions	(12,229)	(40,448)	(52,677)	(10,867)	(37,299)	(48,166)

8.2. Contributions receivable from employers are shown below:

Total Contributions	(52,677)	(48,166)
Contributions from employees	(12,229)	(10,867)
Total contributions from employers	(40,448)	(37,299)
Normal Early retirement strain Deficit funding	(23,445) (2,916) (14,087)	(22,006) (1,992) (13,301)
	2014/15 £000	2013/14 £000

8.3. During 2014/15 employees made Additional Voluntary Contributions (AVCs) of £465,639 (£458,254 in 2013/14). AVCs are managed by external providers who invest them separately from the rest of the Pension Fund. The main AVC provider is Scottish Equitable, with Prudential being the provider for those employees who are members of the London Pension Fund Authority. AVCs are not included in the Pension Fund Accounts in accordance with the Pension Scheme (Management and Investment of Funds) Regulations 2009, section 4(2)(b). The value of the AVCs at 31 March 2015 was £2.685 million (£2.158 million at 31 March 2014).

9. TRANSFERS IN FROM OTHER PENSION FUNDS

9.1. Transfers in from other pension funds were as follows:

1) (3,121)
1) (3,121)
15 2013/14 00 £000

10. BENEFITS PAYABLE

10.1. The total below shows the total benefits payable grouped by entities:

Total benefits payable	41,123	7,721	48,844	39,906	7,376	47,282
Scheduled bodies	179	119	298	155	86	241
Admitted bodies	1,099	160	1,259	1,134	604	1,738
Southwark Council	39,845	7,442	47,287	38,617	6,686	45,303
	£000	£000	£000	£000	£000	£000
	Pensions	Lump sums	Total	Pensions	Lump sums	Total
			2014/15			2013/14

10.2. The table below shows the types of benefit payable.

Total benefits payable	48,844	47,282
Lump sums – death benefits	1,467	1,318
Commutation of pensions and lump sum retirement benefits	6,254	6,058
Pensions	41,123	39,906
	2014/15 £000	2013/14 £000

11. LEAVERS

11.1. Payments to and on account of leavers are classified as follows:

Total payments	2,908	3,710
Refund of contributions State Scheme Premiums Individual transfers out to other schemes	75 65 2,768	11 - 3,699
	2014/15 £000	2013/14 £000

12. ADMINISTRATIVE EXPENSES

12.1. Administrative expenses to the fund are analysed as follows:

Total administrative expenses	842	899
External audit fees	23	18
Southwark Council recharges	819	881
	2014/15 £000	2013/14 £000

13. INVESTMENT INCOME

13.1. A break-down of the investment income shown in the accounts is as follows

	2014/15 £000	2013/14 £000
Dividends from equities Income from pooled investment vehicles Net rent from properties Interest on cash deposits Other income	(2,200) (2,122) (8,555) (21) (5)	(2,115) (2,631) (7,089) - (510)
Total investment income before taxes Taxes on income Total investment income after taxes	(12,903) 105 (12,798)	(12,345) 52 (12,293)

13.2. Other income includes £57,318 income received from stock lending (£7,779 in 2013/14).

13.3. The pension fund invests in a number of pooled funds which do not break down the income and expenditure incurred. Instead these are adjusted through the units held and are therefore reflected in change in market value. Where detailed information is available this is reflected in the accounts.

14. INVESTMENT MANAGEMENT EXPENSES

14.1. A break-down of the investment management expenses shown in the accounts is as follows

	2014/15	2013/14
	£000	£000
Management fees	3,353	3,695
Custody fees	94	20
Performance monitoring service	31	40
Actuarial fees	183	202
Other	-	25
Total investment expenses	3,661	3,982

15. INVESTMENT ASSETS

15.1. Investment assets shown in the net assets statement are analysed below:

2014/15	Total		Analysed by

Reconciliation of movements in investments

15.2. The change in market value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on the sale of investments during the year. The table below shows the movement in investment assets and the change in market value for the year:

	Value at	Purchases	Sales	Change in market value	Cash movement	Value at
	31/03/14					31/03/15

- 15.3. The Pension Fund does not hold derivatives as a main asset class, but they are used by Newton Investment Management, our active equity fund manager, to hedge the currency risk of holding global equities. The currency forward contracts are traded over the counter.
- 15.4. TH Real Estate held cash deposits of £4.428 million at 31 March 2015. There were no cash deposits at 31 March 2014 as it was used to fund the purchase of four direct properties.
- 15.5. The valuation of direct property managed by TH Real Estate is carried out by Knight Frank LLP. The valuer is RICS qualified and the valuation took place on 31 March 2015. All properties have been valued at market value.
- 15.6. The Statement of Investment Principles can be found in appendix 6 of the pension fund annual report. This can be accessed on the council's website via the following link https://www.southwark.gov.uk/downloads/download/2717/pension fund annual report.
 Alternatively a copy can be obtained on request from the strategic director of finance and corporate services, Southwark Council, Finance and Corporate Services, PO Box 64529, London SE1P 5LX.
- 15.7. Investments exceeding 5% within each class of security are as follows:

Taxes	607	625
Other	985	927
Total	3,970	6,133

17. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

17.1. Financial instruments are contracts that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity. They are carried in the net assets statement at fair value and are analysed as follows:

Total	1,102,420	930,120
Financial liabilities at fair value through profit or loss	-	(19)
Financial assets at fair value through profit or loss Financial liabilities	1,102,420	930,139
Financial assets	2014/15 £000	2013/14 £000

- 17.2. The valuation of financial instruments has been classified into three levels, according to the quality and reliability of information used to determine fair values.
 - Financial instruments at Level 1 are those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Products classified as level 1 comprise quoted equities, quoted fixed securities, quoted index linked securities and unit trusts. Listed investments are shown at bid prices. The bid value of the investment is based on the bid market quotation of the relevant stock exchange.
 - Financial instruments at Level 2 are those where quoted market prices are not available; for example, where an instrument is traded in a market that is not considered to be active, or where valuation techniques are used to determine fair value and where these techniques use inputs that are based significantly on observable market data. They comprise property unit trusts.

2014/15	Quoted market price	Using observable inputs	Total
	Level 1	Level 2	
Financial assets	£000	£000	£000
Financial assets at fair value through profit or loss	1,065,158	37,262	1,102,420

Financial liabilities			
Financial liabilities at fair value through profit or loss	(19)		(19)
Total	893,937	36,183	930,120

17.3. The Pension Fund's activities in relation to financial instruments expose it to a variety of financial risks. These risks and how they are managed are set out in Notes below.

Credit Risk

- 17.4. This is the risk the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause the Fund to incur a financial loss. For example a stock may lose value or a dividend due may not be paid out. The market values of investments generally reflect an assessment of credit in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the fund's financial assets and liabilities.
- 17.5. The Fund has set out a series of restrictions in each investment manager's agreement. These restrictions are intended to limit the risks from each individual investment and prevent unsuitable investment activity. The Fund also employs a global custodian to ensure that all transactions are settled in a timely manner.

Liquidity Risk

- 17.6. This is the risk that the Pension Fund may not have the funds available to meet payments as they fall due. Historically the Fund has been cash positive (i.e. contributions received have been greater than benefits paid out). However this trend has begun to change. The reduction in active members and a resulting change in the membership profile have increased the liquidity risk of the Fund going forward.
- 17.7. The Fund currently has two bank accounts. One is held by the Global Custodian and holds cash relating to investment activities, the other is the Pension Fund Bank Account which holds the cash relating to member activities.
- 17.8. There is a strategy in place to ensure that if the Fund found itself in a position where it did not have the funds available to meet its commitments, alternative monies could be drawn down. Funds could be called back from investment managers within a short period of time. Periodic cash flow forecasts are prepared to understand and manage the timing of the fund's cash flows. The appropriate strategic level of cash balances to be held forms part of the fund investment strategy.

Market Risk

- 17.9. Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The fund is exposed to market risk from its investment activities, particularly through its equity holdings. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the asset mix
- 17.10. The objective of the fund's risk management strategy is to identify, manage and control market risk exposure within acceptable parameters, whilst optimising the return on risk.
- 17.11. In general, excessive volatility in market risk is managed through the diversification of the portfolio in terms of geographical and industry sectors and individual securities. To mitigate market risk, the council and its investment advisers undertake appropriate monitoring of market conditions and benchmark analysis.

Price Risk - Sensitivity Analysis

- 17.12. Price risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign exchange risk), whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all such instruments in the market.
- 17.13. The fund is exposed to share price risk. This arises from investments held by the fund for which the future price is uncertain. All securities investments present a risk of a loss of capital. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments.
- 17.14. The fund's investment managers mitigate this price risk through diversification and the selection of securities and other financial instruments is monitored by the council to ensure it is within limits specified in the fund investment strategy.

Price Risk - Sensitivity Analysis

17.15. Following analysis of historical data and expected investment return movement during the financial year, in consultation with the fund's investment advisers, the council has determined that the following movements in market price risk are reasonably possible for the 2014/15 reporting period:

2014/15 Asset Type	Value	% Change	Value on Increase	Value on Decrease
Addet Type	£000	%	£000	£000
Total Equities	803,092	8.92%	874,728	731,456
UK Govt Bonds	-	11.24%	-	-
UK Corporate Bonds	59,203	5.74%	62,601	55,805

Property	174,117	4.53%	182,005	166,229
Cash	16,940	0.01%	16,942	16,938
Debtors	314	0.00%	314	314
Total Assets	1,243,951		1,345,104	1,142,798
2013/14	Value	% Change	Value on	Value on
Asset Type			Increase	Decrease
	£000		£000	£000
Total Equity	679,029	12.35%	762,889	595,169
UK Govt Bonds	25,522	10.16%	28,115	22,929
UK Corp Bonds	103,292	4.61%	108,054	98,530
UK Index Linked	79,319	8.33%	85,926	72,712
Property	143,333	2.45%	146,845	139,821
Cash	16,964	0.02%	16,967	16,961
Forward Currency	(19)	0.00%	(19)	(19)
Options	16	0.00%	16	16
Investment Creditors	(1,969)	0.00%	(1,969)	(1,969)
Investment Debtors	2,134	0.00%	2,134	2,134
Total Appets	4 0 47 004		4 4 4 0 0 5 0	046 204
Total Assets	1,047,621		1,148,958	946,284

- 17.16. The potential changes disclosed above are broadly consistent with a one-standard deviation movement in the value of the assets. The sensitivities are consistent with the assumptions contained in the investment advisers' most recent review. The analysis assumes that all other variables, in particular foreign currency exchange rates and interest rates, remain the same.
- 17.17. Had the market price of the fund's investments increased/decreased in line with the above, the change in the net assets available to pay benefits in the market price would have been as shown in the table above.

Interest Rate Risk

- 17.18. The fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risks, which represent the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.
- 17.19. The fund's interest rate risk is routinely monitored by the council and its investment advisers in accordance with the fund's risk management strategy, including monitoring the exposure to interest rates and assessment of actual interest rates against the relevant benchmarks.

Interest Rate Sensitivity Analysis

- 17.20. The council recognises that interest rates can vary and can affect both income to the fund and the value of the net assets available to pay benefits. A 100 basis point (bps) movement in interest rates is consistent with the level of sensitivity applied as part of the fund's risk management strategy.
- 17.21. The analysis that follows assumes that all other variables, in particular exchange rates, remain constant, and shows the effect in the year on the net assets available to pay benefits of a +/- 100 bps change in interest rates:

Asset type	Carrying amount as at 31 March 2015	Change in year in the net assets available to pay benefits	
		+100bps '	-100bps
	£000	£000	£000
Cash Balances	16,940	169	(169)
Fixed Interest Securities	127,159	1,272	(1,272)
			(4.444)
Total change in net assets available	144,099	1,441	(1,441)
	Carrying amount as	Change in year in the	
Asset type	at 31 March 2014	available to pa	
		+100bps	-100bps
	£000	£000	£000
Cash Balances	10,186	102	(102)
Fixed Interest Securities	104.841	1,048	(1,048)
1 Mod Intoroot Coodings	104,041	1,040	(1,040)
Total change in net assets available	115,027	1,150	(1,150)

Currency Risk

- 17.22. Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The fund is exposed to currency risk on financial instruments that are denominated in any currency other than the functional currency of the fund (£ Sterling). The fund holds both monetary and non-monetary assets denominated in currencies other than £ Sterling.
- 17.23. The fund's currency risk is routinely monitored by the council and its investment advisers in accordance with the fund's risk management strategy, including monitoring the range of exposure to currency fluctuations.

Currency Risk - Sensitivity Analysis

17.24. The following table demonstrates the change in value of assets exposed to currency risk had there been a 10 per cent strengthening or weakening of the pound against foreign currencies. This analysis assumes that all other variables, in particular interest rates, remain constant.

	Change in year in the net assets available to pay benefits		
Assets exposed to currency risk	Value	10%	-10%
	£000	£000	£000
As at 31 March 2015	749,932	824,925	674,939
As at 31 March 2014	675,370	742,907	607,833

18. RELATED PARTY TRANSACTIONS

- 18.1. The Pension Fund is required to disclose details of its financial relationship with related third parties. This has been defined as where the related party has, or is perceived to have, real influence over any transaction between the parties.
- 18.2. Through its administration of the Fund, the council has a related party interest with the Pension Fund, and the costs charged by the council are disclosed in Note 34.
- 18.3. Management of the Pension Fund is the responsibility of the council's strategic director of finance and corporate services. No officers' remuneration is paid directly by the Fund; costs are instead recovered as part of the costs disclosed in Note 12.
- 18.4. Paragraph 3.9.4.3 of the Code exempts local authorities from the key management personnel disclosure requirements of IAS 24, on the basis that the disclosure requirements for officer remuneration and members' allowances detailed in section 3.4 of the Code (which are derived from the requirements of Regulation 7(2)–(4) of The Accounts and Audit (England) Regulations 2011 and Regulation 7A of The Accounts and Audit (Wales) Regulations 2005) satisfy the key management personnel disclosure requirements of paragraph 16 of IAS 24. The Strategic Director of Finance and Corporate Services' remuneration is disclosed in Note 30 of the council's Statement of Accounts.
- 18.5. The council is also the single largest employer of members of the pension fund and contributed £37.5 million to the fund in 2014/15 (£34.4 million in 2013/14).
- 18.6. There were no related party transactions other than those disclosed elsewhere in the accounts.

19. CONTINGENT ASSETS AND LIABILITIES

19.1. There are no contingent assets or liabilities.

PENSION FUND ACCOUNTING POLICIES

20. Summary of significant accounting policies

Fund account - contributions income

- 20.1. Normal contributions, both from the members and from the employer, are accounted for on an accruals basis at the percentage rate recommended by the fund actuary in the payroll period to which they relate.
- 20.2. Employers' augmentation contributions and pension strain contributions are accounted for in the period in which the liability arises. Any amount due in the year but unpaid will be classed as a current financial asset.

Fund account – transfers to and from other schemes

- 20.3. Transfer values represent the amounts received and paid during the year for members who have either joined or left the fund during the financial year and are calculated in accordance with the Local Government Scheme Regulations. Individual transfers in or out are accounted for when received or paid, which is normally when the member liability is accepted or discharged.
- 20.4. Transfers in from members wishing to use the proceeds of their additional voluntary contributions to purchase scheme benefits are accounted for on a receipts basis and are included in transfers In. Bulk group transfers are accounted for on an accruals basis in accordance with the terms of the transfer agreement.

Fund account - investment income

- 20.5. Interest income is recognised in the fund account as it accrues, using the effective interest rate of the financial instrument as at the date of acquisition or origination. Income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of the instrument and its amount at maturity calculated on an effective interest rate basis.
- 20.6. Dividend income is recognised on the date the shares are quoted ex-dividend. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current financial asset.
- 20.7. Distributions from pooled funds are recognised at the date of issue. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current financial asset.
- 20.8. Property related income consists primarily of rental income. Rental income from operating leases on properties owned by the fund is recognised on a straight line basis over the term of the lease. Any lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease. Contingent rents based on the future amount of a factor that changes other than with the passage of time, such as turnover rents, are only recognised when contractually due.
- 20.9. Changes in the net market value of investments (including investment properties) are recognised as income and comprise all realised and unrealised profits and or losses during the year.

Fund account - benefits payable

20.10.Pensions and lump sum benefits payable include all amounts known to be due as at the end of the financial year. Any amounts due but unpaid are disclosed in the net assets statement as current liabilities

20.11. The fund is a registered public service scheme under section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a fund expense as it arises.

Fund account – administrative expenses

20.12.All administrative expenses are accounted for on an accruals basis. All staff costs of the pensions administration team are charged direct to the fund. Management, accommodation and other overheads are apportioned to the fund in accordance with council policy.

Fund account - investment management expenses

20.13.All investment management expenses are accounted for on an accruals basis. Fees for the fund managers and custodian are agreed in the respective mandates governing their appointments and are based broadly on the market value of the investments under their management and therefore increase or reduce as the value of these investments change.

Net assets statement - financial assets

- 20.14.Financial assets are included in the net assets statement on a fair value basis as at the reporting date. A financial asset is recognised in the net assets statement on the date the fund becomes party to the contractual acquisition of the asset. From this date any gains or losses arising from changes in the fair value of assets are recognised by the fund. The values of investments as shown in the net assets statement have been determined as follows:
 - Equity investments, unit trusts and unitised insurance policies at their market bid price on 31 March each year.
 - Foreign currency transactions have been brought into the accounts at the exchange rate that was in force when the transaction took place.
 - End of year balances on foreign currency transactions have been translated at the exchange rate on 31 March each year.
 - Property assets have been included in the accounts at market value as at 31 March each year. The valuation of direct property managed by TH Real Estate is carried out each year by an independent valuer.
 - Investment assets have been valued and included in the accounts at bid price, except for direct property (freehold and leasehold) which have been valued at market value and derivative contracts which are valued on the basis of unrealised gains and losses.
 - Property unit trusts have been included at net asset price.
- 20.15.The fund uses derivative financial instruments to manage its exposure to specific risks arising from its investment activities. The fund does not hold derivatives for speculative purposes. The future value of forward currency contracts is based on market forward exchange rates at the year end date and determined as the gain or loss that would arise if the outstanding contract were matched at the year end with an equal and opposite contract.
- 20.16.Cash comprises cash in hand and demand deposits. Cash equivalents are short term highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in value.
- 20.17.The cost of acquisitions of investment assets including property is treated as revenue expenditure.
- 20.18. There are no restrictions affecting the ability of the scheme to realise its assets at the values quoted.

Net assets statement – financial liabilities

20.19. The fund recognises financial liabilities at fair value as at the reporting date. A financial liability is recognised in the net assets statement on the date the fund becomes party to the liability. From this date any gains or losses arising from changes in the fair value of the liability are recognised by the fund.

Actuarial Present Value of Promised Retirement Benefits

20.20. The actuarial present value of promised retirement benefits is assessed on a triennial basis by the scheme actuary in accordance with the requirements of IAS 19 and relevant actuarial standards. As permitted under IAS 26, the fund has opted to disclose the actuarial present value of promised retirement benefits by way of a note in the net assets statement.

Additional voluntary contributions

20.21. The fund provides an additional voluntary contributions (AVC) scheme for its members, the assets of which are invested separately from those of the pension fund. The fund has appointed Scottish Equitable as its AVC provider. In accordance with section 4(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (SI 2009/3093), AVCs are not included in the accounts but are disclosed as a note only.

GLOSSARY

ACCOUNTING STANDARDS

These are the 'proper accounting practices' that the council must follow. They comprise laws and regulations, which are set out in Acts of Parliament and in codes of practice recommended by professional bodies (e.g. the Service Reporting Code of Practice). These standards ensure that all organisations within a particular sector report their financial performance the same way, which enables the financial performance to be compared with other organisations.

ACCRUAL

An accounting principle where income and expenditure is recognised as it is earned or spent rather than when money is received or paid. This concept is reflected in the accounts by the inclusion of debtors and creditors.

ACTUARIAL GAINS AND LOSSES

These arise where actual events have not coincided with the actuarial assumptions made for the last valuations or the actuarial assumptions have changed.

ACTUARY

A person who assesses risks and costs, in particular those relating to investments and insurance.

AMORTISATION

The writing off of a loan or other balance to the Comprehensive Income and Expenditure Statement over a period of time.

ASSET

An item having value to the council in monetary terms. Assets are categorised as either current or non current:

- A current asset will be consumed or cease to have material value within the next financial year (e.g. cash and stock);
- A non current asset provides benefits to the council and to the services it provides for a period of more than one year and may be tangible e.g. a community centre, or intangible, e.g. computer software licences.

BALANCE SHEET

A statement of the council's assets and liabilities at the balance sheet date.

BALANCES

- (1) The amounts remaining at the year-end, on the various funds and accounts of the council.
- (2) Unallocated reserves held to meet future unpredictable expenditure demands.

BUDGET

Statement of the spending plans for the year.

BUSINESS RATES

See National Non Domestic Rates.

CAPITAL ADJUSTMENT ACCOUNT

An account to reflect the movements in valuations and financing transactions of the council's non current assets, arising from disposals, acquisitions, revaluations and impairments.

CAPITAL CHARGES

Depreciation charges made to service department revenue accounts, based on the value of the assets used by the service.

CAPITAL EXPENDITURE

Expenditure on assets that has a lasting value, generating benefits for many years. For example land, buildings and large items of equipment such as computers or vehicles.

CAPITALISATION

Certain items of revenue expenditure may be deemed to be of a "capital nature" and are therefore transferred to the capital accounts to be funded from capital receipts or borrowing. This normally applies to such items as salaries of staff directly working on bringing assets into being.

CAPITAL RECEIPTS

Income received from the sale of land, buildings and other capital assets. These can be used to finance new capital expenditure within rules and limits set by the government, but they cannot be used to finance day to day spending.

CIPFA (CHARTERED INSTITUTE OF PUBLIC FINANCE AND ACCOUNTANCY)

This is the main professional body for local government accountants and produces standards and codes of practice that must be followed in preparing the council's financial statements.

CIPFA/LASAAC

The joint committee of CIPFA and the Local Authority Scotland Accounts Advisory Committee, who together are responsible for producing the Code.

CODE

The Code of Practice on Local Authority Accounting the United Kingdom. Issued annually by CIPFA, this is a code of proper accounting practice with which local authorities in England and Wales must comply in preparing their financial statements; in particular it provides guidance on differences from Generally Accepted Accounting Practice as a result of the government's legislative requirements.

COLLECTION FUND

This is a statutory account, which records income and expenditure on Council Tax, National Non Domestic Rates, payments to the precepting authorities and transfers to the council's General Fund.

COMMUNITY ASSETS

Assets that the local authority intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal. Examples include parks and historic buildings.

CONTINGENCIES

Money set aside from a budget to meet the cost of unforeseen items of expenditure, or shortfalls in income.

CONTINGENT ASSET

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the council's accounts.

CONTINGENT LIABILITY

- A possible obligation arising from past events whose existence will be confirmed only by the
 occurrence of one or more uncertain future events not wholly within the council's control; or
- A present obligation arising from past events where it is not probable that a transfer of economic benefits will be required, or the amount of the obligation cannot be measured with sufficient reliability.

COUNCIL TAX

The main source of local taxation to local authorities. It is levied on households within the council's area and the proceeds are paid into the Collection Fund for distribution to precepting authorities and to the council's own General Fund.

COUNCIL TAX BENEFIT

Assistance provided by the council to adults on low incomes to help them pay their Council Tax bill. The cost to the council of Council Tax benefit is largely met by government grant.

CREDITORS

Organisations and individuals to whom the council owes money.

CURRENT LIABILITIES

Those amounts which will become payable or could be called upon in the next accounting period, e.g. creditors, debtors and cash overdrawn.

CURRENT SERVICE COST (PENSIONS)

The increase in value of a defined benefit pension scheme's liabilities expected to arise from employee service in the current period.

CURTAILMENT

For a defined benefit pension scheme, an event that reduces the expected years of future service of present employees or reduces for a number of employees the accrual of defined benefits for some or all of their future service. Curtailments include:

- Termination of employees' services earlier than expected, for example, as a restructuring of operations
- Termination of, or amendment to, the terms of a defined benefit scheme so that some or all future service by current employees will no longer qualify for benefits or will qualify only for reduced benefits.

DCI G

Department for Communities and Local Government

DEBTORS

Organisations and individuals who owe money to the council.

DEFERRED CAPITAL RECEIPTS

These represent capital income still to be received after disposals have taken place and wholly consist of principal outstanding from the sale of council houses.

DEFINED BENEFIT SHEME

A pension or other retirement benefit scheme other than a defined contribution scheme. Usually, the scheme rules define the benefits independently of the contributions payable, and the benefits are not directly related to the investments of the scheme.

DEFINED CONTRIBUTION SCHEME

A pension or other retirement benefit scheme into which an employer pays regular fixed contributions as an amount or as a percentage of pay and will have no legal or constructive obligation to pay further contributions if the scheme does not have sufficient assets to pay all employee benefits relating to the employee service in the current and prior periods.

DEFRA

Department of Environment, Food and Rural Affairs

DEPRECIATION

- (1) A charge to the revenue account to reflect the reduction in the expected useful economic life of a non current asset.
- (2) The reduction of the value of a non current asset in the balance sheet in line with the expected useful life.

DSO (DIRECT SERVICE ORGANISATION)

A term used to cover both Direct Labour Organisations (DLO) established under the Local Government and Planning Act 1980 and DSOs set up under the Local Government Act 1988. This is a unit operating within the council on a quasi-contractual footing, which provides services won in competition with private sector firms.

EARMARKED RESERVES

Amounts set aside for specific purposes falling outside the definition of provisions.

FINANCE LEASES

These are financing arrangements with a third party. A finance lease transfers substantially all of the risks and rewards of ownership to the lessee. It is often a lease of land or buildings and is treated under the government's capital control system as a credit arrangement as if it were similar to borrowing (see operating leases).

FINANCIAL INSTRUMENTS ADJUSTMENT ACCOUNT (FIAA)

An account to reflect the movements in assets and liabilities measured at fair value, where the movement in fair value is taken to the Income and Expenditure Account but cannot be charged to Council Tax.

FINANCIAL YEAR

The period of activity represented in the annual financial statements. For local authorities, the financial year is 1 April to 31 March.

GENERAL FUND

This is the main revenue account of the council and includes the net cost of all services (except council housing) financed by local tax payers and government grants.

HISTORIC COST

The actual amount of money originally paid for a particular item as opposed to its current value.

HOUSING REVENUE ACCOUNT (HRA)

This is a statutory account that shows all income and expenditure relating to the provision, management and maintenance of the council's housing stock. The government defines the items of income and expenditure that must be included in the account. Under the Local Government and Housing Act 1989, this account is kept separate from the General Fund and the account must balance. The council is not allowed to make up any deficit in the HRA from the General Fund.

HOUSING SUBSIDY

A government grant paid towards the cost of providing, managing and maintaining the council's housing stock.

HRA

See Housing Revenue Account above.

IAS

See International Financial Reporting Standards

IFRS

See International Financial Reporting Standards

INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)

From 2010/11 local authorities are required to present their Accounts in a form consistent with IFRS as set out by the Code. IFRS is a set of accounting standards that are used consistently internationally and by organisations within the UK, that allow readers of the Accounts ease of use in comparing one set of accounts with another. IFRS is made up of set of numbered standards referenced, for example International Accounting Standard 19 (IAS 19) (Employee benefits) or International Financial Reporting Standard 5 (IFRS 5) (Non-current assets held for sale)

IMPAIRMENT

A reduction in the value of a non current asset, greater than normal depreciation, through economic consumption or through a fall in price.

INFRASTRUCTURE ASSETS

A classification of non current assets, whose life is of indefinite length and which are not usually capable of being sold, e.g. highways, street lighting and footpaths.

INTANGIBLE ASSETS

Non-financial assets that do not have physical substance but are identifiable and are controlled by the council, for example, purchased software licences, patents and trademarks.

INVESTMENT PROPERTIES

Interest in land and/or buildings, which are held for their investment potential or rental income.

LIABILITY

A liability is where the council owes payment to an individual or another organisation.

- A current liability is an amount which will become payable or could be called in within the next accounting period, e.g. creditors or cash overdrawn.
- A long term liability is an amount which by arrangement is payable beyond the next year at some point in the future or to be paid off by an annual sum over a period of time.

MEMORANDUM ACCOUNT

An account that is not part of the council's formal statutory accounts and is included in the statement for added information.

MINIMUM REVENUE PROVISION (MRP)

The minimum amount which must be charged to the revenue account each year and set aside as provision for credit liabilities, as required by the Local Government Act 2003.

MRA

Major Repairs Allowance

MRR

Major Repairs Reserve

NATIONAL NON DOMESTIC RATES (NNDR)

Another name for business rates. NNDR are collected by each council and paid into a central pool managed by the government. The government, in turn, pays back to each council their share of the pool at a standard rate per head of the local adult population.

NET BOOK VALUE

The amount at which fixed assets are include in the balance sheet, i.e. their historical cost or current value less the cumulative amount provided for depreciation.

NET EXPENDITURE

Gross expenditure less specific service income but before deduction of Revenue Support Grant and local taxation.

NET REALISABLE VALUE

The open market value of the asset in its existing use (or open market value in the case of non-operational assets), less the expenses to be incurred in realising the asset.

NON DISTRIBUTED COSTS

These include overheads from which no user now benefits and which should not be apportioned to services. Examples include spare computer capacity and empty offices. These also include pension costs in relation to scheme members' past service.

OPERATING LEASES

A type of lease often of office or computer equipment which is similar to renting and which does not come within the government's capital control system. Ownership of the asset must remain with the lessor.

OPERATIONAL ASSETS

Non current assets held, occupied, used or consumed by the council in the direct delivery of its services.

OUTTURN

The actual level of income and expenditure for the year.

PF

Private Finance Initiative. This is a mechanism for public bodies to procure capital projects without borrowing. Under PFI schemes, the public body buys the services of a private company or consortium to design, build, finance and operate a public facility. The private sector consortium borrows the money for the scheme and the public body pays an annual fee to the consortium under a long term operating contract for the services.

PP&E

See property, plant and equipment

PRECEPT

A levy made by those authorities that do not collect local taxation themselves but require other bodies to collect the required income from local tax payers on their behalf. In London, the precepting body is the Greater London Authority (GLA).

PROPERTY, PLANT AND EQUIPMENT

Assets which provide a benefit to the council and the services it provides for more than one year.

PROVISIONS

Amounts set aside for liabilities and losses which are likely to occur but where the exact amount or timing is uncertain. Payments or contributions to provisions are counted as service expenditure when made. The provision is released into the service revenue account as income to offset the expenditure liability when it arises.

PWLB

The Public Works Loan Board, a central government agency, which is used to fund local government borrowing.

RECHARGES

The transfer of costs from one account to another.

REFCUS

See Revenue Expenditure Funded from Capital Under Statute

RELATED PARTIES

Two or more parties are related parties when at any time during the financial period:

- (i) one party has direct or indirect control of the other party; or
- (ii) the parties are subject to common control from the same source; or
- (iii) one party has influence over the financial and operational policies of the other party to an extent that the other party might be inhibited from pursuing at all times its own separate interests; or
- (iv) the parties, in entering a transaction, are subject to influence from the same source to such an extent that one of the parties to the transaction has subordinated its own separate interest.

RELATED PARTY TRANSATION

Is a transfer of resources or obligations between related parties, regardless of whether a charge is made. Related party transactions exclude transactions with any other entity that is a related party solely because of its economic dependence on the authority or the government of which it forms part.

RESERVES

Amounts set aside to meet future costs. Payments or contributions to reserves are not counted as service expenditure when the reserve is created. Expenditure met from reserves is passed through the service accounts when incurred.

REVENUE EXPENDITURE

Day to day payments on the running of council services such as salaries and wages, operating costs and charges for the use of assets.

REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFCUS)

Expenditure that is not related to the council's non current assets but statutory regulations allow the cost to be funded from capital resources. The expenditure is recorded in the Comprehensive Income and Expenditure Statement as it arises.

REVENUE SUPPORT GRANT (RSG)

A grant paid by central government in aid of local authority services in general as opposed to specific grants that may only be used for specific purposes.

REVALUATION RESERVE

An account to reflect the changes in value of the council's assets.

SECTION 31 AGREEMENT

A partnership agreement, made under section 31 of the Health Act 1999, between a local authority and an NHS body to jointly provide certain functions of the NHS body and certain health related functions of the local authority, using a pooled funding arrangement. Now repealed and replaced by Section 75 (see below).

SECTION 75 AGREEMENT

A partnership agreement, made under section 75 of the National Health Service Act 2006, between a local authority and an NHS body to jointly provide certain functions of the NHS body and certain health related functions of the local authority, using a pooled funding arrangement.

SECTION 106 FUNDING

Payments received from developers to compensate for additional infrastructure costs required as a result of a new development.

SPECIFIC GRANTS

A term used to describe all government grants to local authorities apart from Revenue Support Grant.

WHOLE OF GOVERNMENT ACCOUNTING

Whole of Government Accounts (WGA) are full accruals based accounts covering the whole public sector. This requires all public sector bodies to compile and report their accounts in a consistent manner to enable consolidation in WGA.
