Dear Residents

Heating and Hot water supply

I am writing with regards to the new boilers supplying the heating and hot-water to your homes. We have been advised that there is technical issue with one of hoses to the boiler which is affecting the hot water supply to the new pipework.

Our engineers are on site working to restore your heating and hot water as soon as possible.

We will write to you once the supply is restored. In the meantime please do not hesitate to contact one of the site project team or pop into our office at the Ledbury TRA Hall if you wish to discuss further.

Yours faithfully

Mike Tyrrell
Director of Ledbury
