Dear Resident

### **Water Outage 30 October 2017**

We are writing to let you know it will be necessary to turn off the secondary water supply to your building to allow a main stopcock to be repaired. You will have drinking water from your kitchen cold water tap but the rest of the water supply to your homes will be affected. Your heating units should be fully operational throughout.

The work is not connected to the new heating system. It is part of general maintenance to the block and is necessary to stop water penetration to one of the properties.

The work will be carried out by Smith & Byford to both Peterchurch and Bromyard on:

**Monday 30 October 2017 for approx. 4 hours from 9am to 1pm**

**Please ensure all taps are left in the off position and plugs removed from the plug hole to avoid any floods when the water is turned back on .**

We are sorry for any inconvenience this may cause you. Please do not hesitate to call into the Ledbury TRA Hall if you wish to discuss this further with one of the resident services team.

Yours faithfully

Mike Tyrrell  
**Director of Ledbury Estate**
