Statement of reasons

Camberwell Grove Bridge – Weight Restriction

The London Borough of Southwark (Weight Restriction) (Camberwell Grove Bridge) Traffic Order 2018

- The bridge was previously assessed as structurally inadequate to sustain any vehicle loading. In December 2017, strengthening works comprising of the addition of tie bars were completed which provide structural capacity of 3 tonnes GVW (Gross Vehicle Weight). Consequently, a weight restriction at 3 tonnes GVW is required to ensure the structural integrity of the bridge which carries Camberwell Grove over an important rail line.
- The weight restriction was approved by Councillor Wingfield (Cabinet Member for Environment and Public Realm) on 8 December 2017.
